Garment makers seek Issue bonds in stock market to security for factories

STAR BUSINESS REPORT

Garment entrepreneurs yesterday asked the government to provide security for their facto-

The request was made when a seven-member delegation of apparel makers met Home Adviser Major General (Retd) MA Matin in his office at the secretariat.

The plea comes as attacks on garment factories and clashes between garment workers and the police have become a regular phenomenon, causing a huge business loss.

"We are really concerned about the regular incidents of attacks in the garment factories," Bangladesh Garment Manufacturers and Exporters Association (BGMEA) President Anwar-ul Alam Chowdhury told reporters after the meeting.

At least 40, including 11 policemen, were injured in sporadic clashes between garment workers and the law enforcers at Sheorapara in Mirpur on Tuesday. Such incidents are also frequent in Savar and Gazipur.

"We want security for workers and for our businesses," said Anwar. "The government should provide security as we are paying taxes," he added.

When asked about Matin's reaction, the BGMEA president said that the adviser also shared his concern after learn-

Hanoi to sell 600,000 tonnes rice to Manila

AFP, Manila

Vietnam on Wednesday agreed to sell 600,000 tonnes of rice to the Philippines, a Filipino official said Wednesday.

Manila signed a contract to buy the cereal from Hanoi, Agriculture Secretary Arthur Yap said without giving any details on the contract price.

The imports will bring the country's rice import volume so far this year to 2.3 million tonnes, exceeding an import and September.

nternational

quota of 2.1 million tonnes. The deal stems from negoti-

ations that began last Friday between the two countries.

In April, Vietnam had committed to supply up to 1.5 million tonnes of rice to the Philippines.

Yap earlier said a rice deal with Vietnam would serve to fill buffer stocks for the last quarter of the year, adding the country has ample supply to meet demand during the lean production period between July
