

careers@avery dennison

Avery Dennison Corp of USA, is the global leader in apparel identification product supply with operations in 45 countries. We are a NYSE listed, Fortune 500 company. It is the world's largest provider of Garments labels to the Apparel Industry.

Paxar Bangladesh Ltd., a subsidiary of Avery Dennison Corporation is one of the latest additions to manufacturing facilities in Avery Dennison's Asia Pacific operations. Established in 2003, our state of the art production complex is located in the Dhaka Export Processing Zone. The company serves as a one-stop shop for all types of Garments labels for the vibrant Bangladeshi Garments industry as well as several other countries in the region. To support our expanding operations, we are looking for the following personnel to be based at our sales and administrative office in Gulshan, and also for the factory complex in Dhaka EPZ.

Assistant Manger and Executive, Sales

The exciting position is for a customer oriented, dynamic and self-motivated individual to execute orders. It requires a close interaction with top executives in the Apparel Buying and Garment Manufacturing industry. The job also requires to maintain daily customer call reports, account plans and sales reports in a timely and accurate manner. Business analysis and communication skills are vital for success in this function. Ability to build effective business relationships with key customers, execute individual sales plans are also among the key responsibilities.

The ideal candidate must have a BBA/MBA Degree with a minimum of 4 to 5 years experience for the Assistant Manager position, and 2-3 years of experience in a similar position for the Executive position. Good working knowledge in MS Office is essential. Prior experience in Sales and Marketing in the Apparel Industry can be an advantage, but not a necessity.

Heat Transfer Specialist

The holder of this position will perform troubleshooting of application issues, heat transfer quality issues and equipment problems, and calibrate/audit the bonding equipment (time/temperature/pressure) and relevant test on HTL. He/she will need to work directly with vendors/factory operators for training on Heat Transfer and will report back to the Technical Support Manager (HTL) on the conditions of Avery application equipment and application claims on HTL.

The candidate should have 2-3 years of experience with a manufacturing organization, and a degree in Engineering (Mechanical, Industrial, Textile or Chemical) or a similar degree in any related studies in a technical field. Good command of spoken and written English is essential.

Proof Reader

This position requires to proof read the Layouts, Negatives, Positives and the First print. Random quality and quantity check of finished products is also to be conducted by the Proof Reader. Therefore, attention to detail and excellent organizational skills are necessary qualities for this position. The ideal candidate should have 1-2 years of experience in a similar position and be a Graduate in any discipline.

Shift In-Charge

Reporting to the Production Manager, the Shift In-Charge will lead the production team to achieve company objectives in terms of reliability and quality of the product, inventory control, safety and housekeeping. This role requires ensuring that proper working instruction and quality control measures are followed in every step of the production process; to plan machine wise workload to ensure daily production schedule, and daily machine maintenance. Therefore, strong supervisory and interpersonal skills are necessary for this position. The ideal candidate should have 2-3 years of experience in a similar position in a reputed manufacturing concern, having a graduate degree in any discipline. The candidate must be energetic, hard-working and be ready to work in shifts.

Industrial Engineer

The ideal candidate should have a Bachelor degree in Industrial/ Mechanical Engineering from a reputed university. He/she will investigate and review the utilization of personnel facilities, equipment and materials, current operational processes and established practices. Another major responsibility will be to do the work-study at the factory, and to study production processes to find solutions to improve the current practices and to recommend improvement in the efficiency of operations in a variety of commercial, industrial and production environments. At least 3-4 years of experience in a production/manufacturing related field is necessary for this position. Excellent communication skills and working knowledge of Microsoft Office is essential.

If you are committed to making a difference and are willing to work in an innovative and challenging environment, then the opportunity is there to join. The successful candidate will be offered an attractive remuneration package and a world class working environment. Please send your resume to Paxar Bangladesh Ltd, 3/F Uday Tower, 57 Gulshan Avenue, Gulshan 1, Dhaka -1212. Your detailed resume should include a recent photograph and names of two non related referees, and should reach us before 14 September 2008.
