

Aziz for donors' accountability

UNB, Dhaka

Finance and Planning Adviser Dr Mirza Azizul Islam has urged the donors to establish a system of accountability of donors in an effort to make foreign aid effective.

"There is no system of establishing accountability of donors," he told the ministerial session of the high level 'Forum on Aid Effectiveness' in Accra, Ghana on Thursday, according to a message received here yesterday.

By contrast, he said, the recipient countries still have to go through diverse conditions by the donors.

The adviser led a 3-member delegation to the 3rd Forum held September 2-4. He co-chaired the opening session of the Forum with OECD Secretary General, while Ghana President John Agyekum Kufuor delivered the address of welcome.

Dr Aziz said the aid architecture and its effectiveness have improved to a large extent since the inception of Paris Declaration in 2005.

"The commitment of the developed countries to provide 0.7 percent of their GNP as ODA, as embodied in the first International Development Strategy adopted in 1960s,

remained unfulfilled even after five decades," he reminded the donors.

The adviser stressed that the objectives of the third Forum to enhance effectiveness deserve support and it should not detract attention from the need for increasing the volume of aid to the developing countries.

The consensus embodied in Accra Declaration is actually owned by capitals of donor countries and headquarters of multilateral donor agencies, he said and urged the donors to empower their country offices to implement the decisions on the ground.

China RMG unit in Karnaphuli EPZ soon

UNB, Dhaka

A Chinese company will set up a garments manufacturing unit in the Karnaphuli Export Processing Zone (KEPZ) with an investment of Tk 34 crore.

The 100 percent foreign owned company, M/s Blossom Textile Limited, will produce T-shirts, Polo shirts, pants and jackets. Some 1,950 Bangladeshi people and 50 foreigners will be employed at

the factory.

An agreement to this effect was signed between the Bangladesh Export Processing Zones Authority and M/s Blossom Textile Limited in Bepza Complex here recently.

Member (Investment Promotion) of Bepza Prasanta Bhushan Barua and Operation Manager of M/s Blossom Textile Limited Achmad Salkhu signed the agreement on behalf of their organisations.

Prasanta Bhushan Barua, member of the Investment Promotion of Bangladesh Export Processing Zones Authority (Bepza), and Achmad Salkhu, operations manager of M/s Blossom Textile Ltd, exchange documents after signing an agreement on behalf of their respective sides in Dhaka recently. Under the agreement, the Chinese garments manufacturer will invest about Tk 34 crore in setting up a plant in the Karnaphuli Export Processing Zone. Senior officials from both sides were also present.

Satkhira shrimp output may miss target

UNB, Satkhira

The target of shrimp production may not be achieved in Satkhira district this fiscal due to widespread virus infection in the shrimp enclosures.

Local shrimp farmers said the shrimp enclosures were affected due to nurturing of virus affected fry. They said they are losing interest in shrimp production as they are facing huge loss.

Although a PCR machine was installed here one and half years ago for detecting virus in shrimp fries, the Fisheries Department could not yet

make it operative.

District Fisheries Department sources said shrimps were cultivated on about 70,000 hectares of land this year and a target was set to produce 18,000 tonnes of shrimp worth about Tk 900 crore.

Biswajit Sadhu, a shrimp cultivator of Patkelghata area, said this year virus infection in the shrimp enclosures is much higher than the previous years.

"Some 85 to 90 fries die if 100 fries are released which is causing huge loss to the farmers," he said.

Local shrimp farmers alleged that the PCR lab was

not made operative due to secret understanding between fisheries officials and hatchery owners.

If the supply of virus-free fry could not be ensured the shrimp industry, which occupied the second position after readymade garments (RMG) in terms of earning foreign currencies in Bangladesh, will face ruin, they said.

Hasanuzzaman Chowdhury, a fisheries official, said the lab could not be made operative as the government not yet determined how much fee the farmers would be charged for testing in the lab.

Canada jobless rate steady

AFP, Ottawa

Canadian employers added 15,000 jobs in August while the jobless rate held unchanged at 6.1 percent, Statistics Canada said Friday.

The report was slightly better than expected and marked a turnaround from July, when 55,000 jobs were cut -- the largest loss in 17 years.

Analysts had been expecting an increase of 8,000 jobs and an unemployment rate of 6.2 percent.

Over the first eight months of the year, Canada has added 87,000 jobs, suggesting slow activity after last year's 221,000 over the same period.
