Modern Masterpiece at Nikunja

- Innovative architectural features and a functional floor plan are the hallmarks of this attractive design. While dignified and reserved on the outside, this plan presents delightful surprises throughout the interior. Rooms of various shapes are arranged to maintain openness and to take advantage of the wonderful patio.
- The entry flows into the formal living, lighted by a stunning full height glass window arrangement with an interesting view to green patio.
- In the first floor, the informal living and dining spaces flow together oriented to the front adorned with see-thru window. For quiet, candlelight dinners, the formal dining room tucked away to the front of the home is ideal.
- The delightful modern kitchen features a nice pantry and includes a large window with an optional breakfast nook. Opposite to kitchen, a large wonderful bedroom is overlooking the courtyard.
- A bridge on the upper floor visually separates two large cross ventilated bedrooms. Both the bedrooms are overlooking both sunken patio and open terrace.
- The majestic, luxurious master bed room on the second floor is a wing in itself. The master bed flaunts a beautiful window showpiece both at the front and side with a garden tub and patio. It includes his-and-her large walk-in closets, dressing area and luxury private bath.
- The basement offers enormous potential as a special retreat for kids or adults, a studio, office, exercise area, dormitory for overnights.
