Aloron International School & College is set to deliver quality education

EVEN though there are reputable and commendable schools in Dhaka, the capital city of Bangladesh, yet there still is a great demand for an educational institution aiming to produce well-rounded citizens. There is a great need to set up schools, which prepare children and provide them with the skills and confidence to easily adjust in any environment and compete in today's competitive global village.

'Aloron' hopes to be an exceptional institution that aims to provide young children with quality education to prepare them to stand out in a crowd and achieve success in practical life.

The main features of this institution are:

1. Aloron is determined to provide the children with the highest educational standard in the given circumstances.

2.Aloron will ensure facilities to develop confidence, enquiring mind, competitive attitude and love for learning to all her students.

3. This school will provide a safe and secure environment for each child so that he/she is capable of facing new situations.

4. Aloron will encourage pupils to participate actively in the community service to help the underprivileged in our society and thus making the pupils caring and responsible citizens.

5. Aloron will use the latest technology like computers, Multi media presentation, TV, Videos, Internet to make lessons easily understandable, interesting, enjoyable, innovative and a fun to explore and engage the students to BE THE BEST.

Aloron aims also to provide her students with the knowledge about the purpose of their creation so that they can grow up as honest, sincere, goal oriented, efficient hard working and successful citizens of the country in which they live.

How would Aloron achieve its aim?

(a)Aloron has employed and will employ teachers with very good academic qualifications, experience, who are able to use computers, multimedia projector and internet in the classroom.

(b) All teachers of Aloron have to be punctual and maintain strict discipline in class rooms and the school premises.

d) Each teacher has to be very good in his/ her subject and have to make lessons interesting and enjoyable to arouse curiosity in pupils' minds so that they become innovative and be prepared be competitive to achieve best results in the exams.

(e) Aloron will provide her students with teaching materials to make pupils inquiring, and encourage them to think creatively to make their mark in the class and the school.

(f) Aloron's will inspire, encourage and motivate young children to learn about the purpose of their creation so that they can grow up as honest, responsible hard working citizens of their country.

(g) Aloron will encourage meritorious students to excel by providing them with scholarships.

(h) Aloron will provide pupils with physical education, medical check up, prayer facilities and outdoor activities.

(i) Aloron hopes to provide total school based education and relieve the parents from the burden of private tuition and coaching at coaching centres.

Aloron's Motto is: **Look for the Best, Aim for the Best, and Be the Best.**
