

THE 11th International Conference on Computer and Information Technology (ICCIT 2008) has been successfully staged in the campus of Khulna University of Engineering & Technology (KUET) . With 101 acres of campus and with its nice green landscape blended with beautiful architectural maneuvers, KUET- one of the top technological universities in Bangladesh, took the challenge to host the 11th ICCIT 2008. This is the first time ICCIT is held outside capital city Dhaka.

The conference was scheduled for three days (25-27 December, 2008). That included the inauguration ceremony, presentations on 138 technical papers, 6 keynote sessions addressed by 6 prominent researchers around the world, a session on BdREN, a gala dinner and a cultural show. Workshops organized by two prominent universities of Australia also took place in conjunction with the conference.

Initially 538 papers were submitted from 24 different countries. However, 158 papers were finally selected for the event. The selection panel consisted of 83 reviewers from all around the world. The paper acceptance rate of 29.4% indicates the acceptability of the conference. Out of these 158 papers, 138 papers finally took their places in the conference proceedings. Out of these papers, 42.4% have originated from authors outside of Bangladesh.
