

HOT & COOL Insulation

JUMBOLENE[™] makes your roof HEATPROOF and also protects against WATER LEAKAGE!!

JUMBOLENE[™] PE Foam

- Stop the oven effect
- Installation is safe & trouble-free with excellent insulation of all types (Hot & Cold)
- Long lasting, temperature proof, light weight, cheaper & eco-friendly

Sealed Roof
JUMBOLENE[™] PE Foam can be applied from below on gable roofs and from above on flat roofs. In either case, the oven effect is being avoided that is induced by exposure to sunlight and excess heat is prevented from going through the roof to the inside of the rooms. The best K-values can be achieved for all kinds of roofs by insulating. The insulation technology from JUMBOLENE[™] ensures consistent temperature control.

Energy Savings and Cost Savings
The benefits of JUMBOLENE[™] PE Foam for air-conditioning units are tremendous, as it strongly controls the loss of coolness and entry of excess heat, thus resulting in high energy saving attributes. The capital investment cost of JUMBOLENE[™] PE Foam Insulation has a significantly high Return on Investment in the shortest period of time through its energy savings and durable Characteristics.

Added Value
Increase in the value of property results from the prevention of water damage, energy savings and improved structural stability which all increase the durability of the property. Eco-friendly JUMBOLENE[™] is superior to Rock wool, Fiberglass, Bubble foam and other materials which are either health hazardous or disintegrate after a few years, resulting in added maintenance costs.

The JUMBOLENE[™] Insulation
JUMBOLENE[™] PE Foam has diverse application usage capabilities and can be used for insulation against water, heat, cold & sound. In addition, it also usually serves against unwanted vermin. Use JUMBOLENE[™] to insulate and protect your roofs, ceilings, walls, floors and AC duct lines immediately.
