

Manufactured in Japan, SAT119 is the number one fire extinguisher in Japan and have already made an impact in UK, Greece and Korea as an effective liquid fire extinguisher.

SAT119 is functionally superior to regular extinguishers. All you need to do is throw it at the center of the flame and that's it - the situation is under control. SAT119 can be effectively used in domesic and office spaces.

How SAT119 is unique:

- It is very easy to use - no training required.
- It's specially developed for indoor use.
- It contains no harmful chemicals and is environment friendly.
- It lasts five long years before expiring.
- Very quick response time.

Protect your life and Property by having SAT119 handy.
