Let Logic Prevail

1st National Debate Championship @ Daffodil

Hasan Shahrear

DEBATE is something which teaches us to think logically. Human intelligence gets perfection through practice and debate is one of the best forms of intellectual practice. To express opinion and to motivate others one must have proper speaking skills. Debate surely enriches speaking skills and it also sharpens our reasoning faculty. Sometimes we win and sometimes we lose; how to learn from defeat and become a winner again, we learn this practice as an outcome of debate.

The 'DIU 1st National Debate Championship 2009', organized by Daffodil international University Debating Club (DIUDC) was held in Daffodil International University (DIU) auditorium from 9 to 12 April, 2009.The motto of the championship was 'Let the logic bring freedom'. Twenty-four universities from all over the country including Dhaka University, Jahangirnagar University, Rajshahi University, and Stamford University took part in the competition. It was a festival of logic; the spontaneous participation of the young debaters made the competition very lively.

To express opinion and to motivate others one must have proper speaking skills. Debate surely enriches speaking skills and it also sharpens our reasoning faculty.
