## Emile Hirsch to play Hamlet in new adaptation

Acclaimed actor Emile Hirsch ("Into the Wild," "Speed Racer") will be the next performer to tackle what may be the most challenging, coveted role in English drama: the title role of Shakespeare's "Hamlet." Hirsch will be the latest in a group of praised thespians including Kenneth Branagh, Ethan Hawke, Mel Gibson and Laurence Olivier to undertake the lead in film adaptation of the classic play, reported Broadway.com.

The new "Hamlet," a re-telling of the story set in contemporary times, will be directed by Catherine Hardwicke, who helmed "Twilight" and "Thirteen." According to MTV, Hardwicke previously directed Hirsch in 2005's skateboarder film "Lords of Dogtown." The script -- containing modern language but retaining the original play's tropes of death,

revenge, love and teen angst -- will be written by Ron Nyswaner, an Academy Award-nominated screenwriter for "Philadelphia," reported MTV.

Hirsch suggested the idea of adapting "Hamlet" into a modern suspense thriller, according to "Reporter." One of the story's last high-profile adaptations -- a 2000 version starring Ethan Hawke -- saw the play transferred to modern corporate America but with its Shakespearean dialogue intact.

Though a release date and the other members of the film's cast have not been announced, the producers of "Hamlet," Dan Jinks and Bruce Cohen (producers of last year's "Milk," also featuring Hirsch) are awaiting a completed script "in the coming months," with production starting shortly thereafter, according to "Reporter."
