Bangladesh Bridge Authority

Padma Multipurpose Bridge Project
Setu Bhaban, New Airport Road, Banani
Dhaka 1212
Website: <http://www.bba.gov.bd>

Memo No: BBA/PMBP-257/09-730 Date: 2 August 2009

Expression of Interest (EOI) For Checking Engineering Consulting Services for Padma Multipurpose Bridge Detailed Design under Bangladesh Bridge Authority (BBA), Bridges Division, Ministry of Communications, Government of the People's Republic of Bangladesh.

Title of Project: Loan No. 2375 BAN: Padma Multipurpose Bridge Design Project.

People's Republic of Bangladesh has a TA Loan from the Asian Development Bank (ADB) and intends to utilise part of this loan towards the cost of the contract for consulting services necessary to independently check the detailed design of the Main Bridge and River Training Works on the Padma Multipurpose Bridge Project.

Objective and Scope:
The Padma Multipurpose Bridge will improve the road connectivity to link the southwest zone to the eastern zone of Bangladesh.

The Padma Multipurpose Bridge Project comprises a new fixed crossing of the Padma River in Bangladesh, which will consist of a new bridge approximately 6.15km long across the Padma River, viaduct structures, major rivers training works and approximately 13.6km of approach roads and bridge end facilities, including toll plazas, service areas and offices. The main bridge is to carry a highway, rail and other facilities including gas, power transmission lines and communication lines.

The Project comprises two phases – Phase 1 of the Project comprises the Design Phase leading through procurement action to award of construction contracts, and Phase 2 comprises the Construction Phase. On the 29th January 2009, Phase 1 of the Project was awarded by the Bangladesh Bridge Authority to Maunsell AECOM Limited in association with Northwest Hydraulic Consultants, SMEC International and ACE Consultants (the design consultant) for delivery of the project.

The primary objective of the independent checking role is to ensure the design of the Main Bridge and River Training Works satisfies the objectives set down in the terms of reference for the design phase of the Project and to enable construction contracts to be awarded for the project, with the requirements of the Client and potential financiers being fully met.

Consulting Services for the Independent Checking Engineer of the Main Bridge and River Training works:
An international consulting firm shall be engaged to carry out the role of the independent Checking Engineer.

The Checking Engineer shall be responsible for checking the deliverables of the Design Consultant with due professional skill and care in accordance with the agreed design criteria.

The Checking Engineer's scope shall include an independent check of the permanent works design both in service and during construction. The Checking Engineer shall consider the construction methodology and sequence of the Main Bridge and River Training works (i) to ensure that the structural design is satisfactory in the temporary condition and does not adversely affect the capacity or behaviour of the permanent structure, and (ii) to ensure the constructability of the design is fully addressed with regard to safety in construction.

The Bangladesh Bridge Authority (BBA) now invites eligible international consultants to indicate their interest in providing the services. Firms from ADB member countries should express interest in being short-listed.

The request for proposals for submitting detailed technical and financial proposals is expected to be issued in September 2009 to short-listed firms. BBA reserves the right to shortlist or not shortlist any or all of the applicants without assigning any reason whatsoever.

The consulting firm will be recruited in accordance with the Guidelines on the Use of Consultants by Asian Development Bank and its Borrowers using the Quality Based Selection (QBS) method and requesting full technical proposals (FTP). The estimated budget of the consulting services is US\$ 1.00 million. A draft copy of the Terms of Reference for the Checking Engineer is available.

Interested consultants may obtain further information on a working day (Sunday through Thursday) during normal office hours (0900 hrs to 1700 hrs) from the office of Project Director, whose contact details are available below.

Expressions of Interests (EOIs) must be submitted online through ADB's website (www.adb.org). Consultants may still submit the hardcopy of the EOIs they submitted online to the address indicated below. In case of any discrepancies between the EOIs received online and in hardcopy, the EOI submitted online will be evaluated for shortlisting purposes.

For online submission: (1) register with ADB's CMS (Consultant Management System) at <http://www.adb.org/Consulting/cms.asp>, (2) go to <http://cms.adb.org>, (3) click on "BANGLADESH", (4) find the captioned project name and click on "view," (5) click on "submit EOI," and (6) follow the instructions. All requested information must be filled in completely.

EOIs must be received on or before 3rd September 2009 upto 16 hrs Bangladesh Standard Time.
