Panasonic ideas for life

INVERTER
VEGERATOR
The Convenient, Revolutionary Refrigerator

Brings more convenience
& more savings to your life

Panasonic Vegerator : the new and improved Magic Top.

Convenient Center Position

Panasonic developed a new concept refrigerator with the Vegetable Drawer located in the center - now it's easier than ever to put in and take out items. There's also enough space to store even large whole vegetables.

Energy Saving

By using only as much power as needed, the inverter allows you to reduce energy consumption by 20%. Your refrigerator runs 24 hours a day, seven days a week, so this can mean major electricity savings.
