Contract No. MB-9 : Main Bridge - Marine Geophysical Survey Works
Deadline for Bids : 2:00 pm on Thursday 26 November 2009

- The People's Republic of Bangladesh has received a loan from the Asian Development Bank (ADB) towards the cost of the Padma Multipurpose Bridge Design Project. Part of this loan will be used for payments for specialist investigations required for the detailed design of the Padma Multipurpose Bridge. Bidding is open to bidders from eligible source countries of the ADB.
- AECOM New Zealand Limited, on behalf of the Bangladesh Bridge Authority (BBA) invites sealed bids from eligible bidders for the Main Bridge - Marine Geophysical Survey Works.
- International Competitive Bidding will be conducted in accordance with ADB's Single-Stage-One-Envelope Bidding Procedure.
- The bid will comprise the documentation necessary for the evaluation of eligibility and qualification as well as the financial bid which are to be submitted in one envelope containing both the Price Proposal and the Technical Proposal separately in sealed envelopes.
- General Description of Works
Marine geophysical survey information is required for the detailed design of Padma Multipurpose Bridge over Padma River in The People's Republic of Bangladesh. The successful bidder has to perform marine geophysical survey works as listed below, to cover a river bed area, along the bridge centre line of the proposed Padma Multipurpose Bridge across the Padma River of approximately 5.7 km to 6.5 km in length and within a corridor of 200m in width (100m to either side of the bridge centerline) to be surveyed with the water depths expect to range from 1m to about 30m under this Contract;
The marine geophysical survey works to be carried out within the survey boundary as indicated on Drawing No. PB-GS-01 under this contract will include, but not exclusively with the following major items:
• Bathymetric survey and side scan sonar survey within survey area to produce quantitative and qualitative data of the riverbed topography and acoustic reflectivity;
• Seismic reflection survey within survey area for determining sub-river bed lithology down to -150m PWD below river bed level. All equipments employed shall be capable of operating effectively in water depths up to 30m;
• Magnetic survey within survey area to detect any magnetic anomalies, indicative of any metallic or magnetized object down to -50m PWD below riverbed level.
• Setting-up and monitoring of tide gauge during the course of the Contract;
• Provide geophysical survey reports in plotted and digital format as required by the relevant Specification.
• Provide preliminary and interim geophysical survey plans and interpreted geophysical and geological cross sections.
