

40TH INDEPENDENCE DAY

EVERY year the nation celebrates the Independence Day with joy and sadness. On this day in 1971 with the spirit of liberation, people of this land waged an armed struggle against the Pakistani forces.

The glory was preceded by the Black Night of March 25, 1971 when many unarmed and innocent Bangalees were killed by the occupying forces.

People from all walks of life and different socio-cultural organisations observed the night and the 40th Independence Day with mixed emotion as the government has started the process of trying war criminals.

Now, the nation waits for quick completion of the trials.
