

White paper on Logang killings demanded

STAFF CORRESPONDENT

Leaders of different organisations of indigenous people in a statement yesterday demanded of the government to publish white paper on the all killings, including Logang killings, in Chittagong Hill Tracts.

They also demanded exemplary punishment to the people involved with those killing, says a press release.

Greater Chittagong Hill Tracts Students Council (PCP) Khagrachari

district unit President Ratan Chakma, Gonotrantik Jubo Forum district unit President Remin Chakma and Hill Women's Federation district unit President Riku Chakma issued the statement on the occasion of 18th anniversary of the Logang killings occurred on April 10 in 1992.

They said no government has taken any action against the culprits, although 18 years had already been passed.

More than a dozen of genocides occurred in the CHT, but no investigation

report was published. Conspiracy is going on to evict the indigenous people through killing, rape and arson attacks, they alleged.

They also urged the government to ensure social security of the indigenous people.

They said a sudden attack was launched on the indigenous people at Logang in Khagrachari on this day in 1992 while they were preparing to celebrate Boisabi that left more than 1,000 indigenous people dead.

3 int'l airports still under high security

STAFF CORRESPONDENT

Three international airports still remain under high level of security as Biman Bangladesh Airlines authority thinks that threat of terrorist attack still exists.

Acting Secretary of Civil Aviation and Tourism Ministry Shafique Alam Mehdi yesterday said this to reporters at the Biman Headquarter at city's Kurmitola.

Meanwhile, Biman high officials held a series of meetings at its headquarter to discuss threat of terrorist attack and the latest scenario of airport security at the Shahjalal International Airport in the city, Shah Amanat International Airport in the port city and Osmani International Airport in Sylhet.

On April 9, the US and other friendly states informed the Bangladesh govern-

ment that terrorists may attack Shahjalal Airport and hijack plane.

In face of the threat of terrorist attack, the government the same day beefed up security in and around the Shahjalal International Airport.

Briefing reporters at Biman head office, Shafique said, "Threat still exists. We, therefore, keep continuing to beef up security at all the three international airports."
