

Lamagna and Dean of FASS, Dr. Tazul Islam to officially open the event by lighting the *Mongol Prodeep* (lamp).

As the day went on (and the 3 days after that), our Creative Pool Studio transformed into a bustling and lively Gallery, with teachers, students and their respective guardians coming in, scrutinizing and commenting on the photos. We even ended up selling quite a number of photos, which was quite a bonus, since most of us were too caught up in the experience and spirit of the event itself! On the last day of the event, all the photographers were interviewed, as were some visitors and parents, giving their feelings about the exhibition and the photos we've captured.

And so ended what was our very first photography exhibition! After all the effort put into the event, and the reward of the sheer joy of it, it won't be surprising to see more of these happening sooner! If nothing else, there is no doubt that our enthusiasm to be better photographers and develop variety and depth of meaning in our photographs has definitely taken a huge boost! A big thanks once again to the VC madam, Hasan Sir, Tazul Sir, Niaz Sir and Dr. Shahidul Alam, founder of DRIK and Principal of *Patshala* for their words of wisdom and continued demand for us to excel even more!
