Go Green Sunnydale

Marium Nawal Oishee and Najibah Nasrin

A festive atmosphere prevailed in Sunnydale Middle Section on Thursday, April 29 as it was the Project Presentation Day of 2010. The theme of this year was 'Go Green Sunnydale' and the programme was a great success. Students of class, I to class VI participated in this programme. The Chief Guests of the programme was Principal, Tazeen Ahmed and Vice Principal, Zeenat Afroza.

Through the presentations the students showed their awareness towards the global issues relating to environmental hazards that the world is facing today, or may have to face tomorrow.

The students demonstrated alternative ways of producing electricity in Physics and explained about atoms and molecules through vivid models in Chemistry. The problems of global warming and the advantages of replacing fossil fuels with renewable resources like hydro-electricity or solar power were shown with illustrations in Geography projects. Last but not the least, the display of exquisite paintings and handicrafts made by the students amazed everyone.

At the end of the programme, the principal handed out certificates to the participants. The students donated plants for the tree plantation programme and pledged to practice the use of 3R bins (reduce, reuse, recycle) in the school compound. We, the students of Sunnydale, hope to raise awareness among people and build support for our campaign to save our beloved planet.

(The writers are students of standard six, Sunnydale)
