

Request for Letters of Interest

The MEASURE Evaluation project is seeking a Bangladeshi partner institution for the purpose of implementing a project to expand local evaluation capacity in the health, nutrition and population sectors. This advertisement invites Bangladesh based institutions (national or international) focused on evaluation research in these sectors to submit an initial letter of interest to serve as that partner institution. From the set of institutions expressing interest in such a partnership, MEASURE Evaluation will determine a short list who will be invited to respond to a more formal request for proposals to follow shortly.

MEASURE Evaluation (<http://www.cpc.unc.edu/measure/>) is a United States Agency for International Development (USAID) funded project headquartered at the Carolina Population Center of the University of North Carolina at Chapel Hill (UNC-CH). MEASURE Evaluation seeks to strengthen monitoring and evaluation (M&E) functions and systems and build individual, organizational and national capacity to assess the effectiveness of public health interventions. MEASURE Evaluation is implemented by UNC-CH in partnership with Futures Group International; ICF Macro; John Snow, Inc.; Management Sciences for Health; and Tulane University.

MEASURE Evaluation seeks to engage a Bangladeshi organization in a partnership to expand the country's evaluation capacity. This partnership should begin within this calendar year. The successful applicant to serve as MEASURE Evaluation's partner will demonstrate the following:

- experience evaluating population, health and nutrition programs;
- a track record of successful partnerships with foreign research-oriented organizations;
- background setting up, managing or assessing health management information systems;
- an extensive portfolio of prior survey research (survey development; sampling; data collection, management, analysis and dissemination), with a special emphasis on household and health interview surveys;
- a diverse team of social scientists (demographers, epidemiologists, medical doctors, medical demographers, policy analysts, etc.) with a wide range of skills and extensive experience.

If interested, please send an initial letter of interest to MEASURE Evaluation. This letter should be on your institutional letterhead and provide a brief overview of your organization (including capabilities, accomplishments, and personnel). Letter should be no more than 2 typed pages (12 point font, 1.5 spaced). Letters of interest should be submitted electronically to: bangladesh.evaluation@gmail.com.

Deadline: Letters of intent must be received by 5pm EST on July 1, 2010. Early submissions are encouraged.

Applicants will be notified by July 4, 2010 if selected to submit a more formal proposal.

VACANCY ANNOUNCEMENT
