

students not wanting to cook for themselves, comprehensive dining options offer students a wide variety of choice including vegetarian restaurants, bistros, and a grocery store for those interested in self-catering. Particularly for students living on campus, keeping healthy and energized for classes has never been easier.

The most popular areas of program interest for international students applying to UVic include its Bachelor of Commerce and Engineering programs, while other majors in the areas of the humanities, medical sciences, and education continue to draw students into new directions. From studies in political science, to environmental issues, creative writing to nursing the university's ten separate faculties offer a wide range of choice for students looking to obtain a top-quality education.

Have more questions?

To learn more about the University of Victoria and its academic options, be sure to visit it's website at http://www.uvic.ca. Or, to take the first step towards applying to one of the school's comprehensive programs, visit www.canada123.org and follow the easy application instructions, located at the top right-hand corner of the home page or alternatively, get personal counselling by dropping by the Dhaka-based Canadian University Application Centre (or 'CUAC') office located on Gulshan Road.

Additionally, UVic staff travels from Canada to Dhaka and will be present on Friday, November 5th, along with other university representatives from across Canada, at The Westin Dhaka from 12 noon to 8pm, ready to answer all your questions with typical Canadian helpfulness.

WHEN: Friday, 5th November - 12 noon to 8 pm

WHERE: The Westin Dhaka, Ballroom 3 , Gulshan 2 , Dhaka

We look forward to meeting you soon!

Field Hockey: At University of Victoria, countless sporting opportunities and outdoor activities await interested students, both on-campus and off. From joining one of the school teams in such sports as field hockey, football (called "soccer" in Canada), or golf, to spending some free time playing squash or swimming at the campus facilities, to cycling the city streets or trying your hand at ocean kayaking out on the deep blue sea Victoria is full of exciting activities to keep students active!

Telescope: UVic is home to some of the most advanced educational and research facilities in Canada. Take this new telescope, for example a $700,000 instrument that is being used to help teach undergraduate science students in the areas of Physics and Astronomy. It is by far the largest on-campus telescope in the country, and the fifth largest telescope overall in Canada befitting for a university renowned for its research involving the formation of galaxies, stellar structure and evolution, and theoretical and observational cosmology.
