

Welcome to Dutch-Bangla Bank's galaxy
of modern banking with

10000 DBBL
ATMs

50 FAST
TRACKS

With this landmark, Dutch-Bangla Bank is taking banking services to new heights by introducing DBBL's FAST TRACK. This new concept of banking services was started in December 2009 by DBBL.

FAST TRACK is designed to cater to most of your needs at the convenience of your local neighbourhood rather than going to our branches. It features knowledgeable staff who can help you with anything. Fast Track also offers ATMs for cash withdrawal, deposit machines for automated cash deposit, delivery of cards, PIN and cheque books, instant resolution of your queries, account opening forms and much more.

To make banking universal, Dutch-Bangla Bank will launch mobile banking and the banking sector's largest call center shortly.
