12.	Project/programme code (if applicable)	5050.
13.	Project/programme name (if applicable)	Capacity building of Bangladesh Rifles to curb women and child trafficking.
14.	EOI closing date and time	28 October 2010 at 1100 hours.
INFORMATION FOR APPLICANT		
15.	Brief description of the assignment	Background of the Project: (1) Geographically, India surrounds Bangladesh from almost three sides. Bangladesh loses a huge amount of revenue for illegal cross border trading. Apart from illegal trade, drug smuggling and human trafficking specially women and children is a major issue. Bangladesh Rifles (BDR), being a vital organization in terms of border security has to work with optimum efficiency to ensure the security of Bangladesh border. As the human trafficking and drug smuggling is quite different from the traditional cross border illegal trades, BDR lacks some important ingredients like logistics, training and psychological build to combat human trafficking more effectively and efficiently. On this backdrop, the Ministry of Home Affairs feels that there is enough room to strengthen BDR's existing capability in these respects. (2) The main teeth strength of BDR as a force is its soldiers who are recruited from different parts of the country, mostly rural. The social and economic background of the soldiers is not very much conducive for a strong mental makeup for a progressive view on women. As such there is enough work to be done on the psychological build up. The folks in the bordering area are also quiet unaware about the social, political and moral aspects related to human trafficking. As such they get indulged in different stages of human trafficking purely on economic considerations. There is great a need of building awareness in the target population in the border area. The drug smuggling and human trafficking operators are qualitatively more capable in terms of intelligence, technique, use of equipment etc. BDR as an organization needs to be more proactive and efficient in these fields. These include better capability on information technology, communication capability and physical mobility. BDR has good capabilities in communication but needs improvement in information technology resources, training and more so about Presently BDR has 37% shortage of transports. More so about 56% of the existing transports being relatively older are not confidently compatible to be requirement. (3) Basing on these existing situation and requirement the objectives are formulated, which, if achieved would lead to a better atmosphere and capability of concerned masses particularly against human trafficking and drug smuggling which in general will capacitate BDR as a stronger force in performing its role. (4) To accomplish the objectives, initially extensive site visit in bordering areas has to be conducted to assess the gaps and capabilities within Bangladesh Rifles to combat trafficking in persons by the relevant officials of BDR. Training classes have to be conducted for BDR officials following the training program relating drugs and human trafficking, effective investigative procedures, technique on building solid cases against traffickers, law to work with victims and standardizing methods of data collection. Classes of criminal investigations management have to be conducted. Effort for provisioning technical assistance for BDR officials has to be made which will be utilized to track the cases and gather statistics on trafficking cases, routes and traffickers. Objectives of the assignment: The consultant will be the administrative and technical focal point and advisor to PD for smooth implementation of the project. Specific task for the consultant will be as follows: (1) Assist the Project Director (PD) for procurement of other service contractors (firm/individuals) as per need. (2) Assist the PD for monitoring, quality assurance and evaluation of the service contractors/consultants to be engaged. (3) Coordinate the activities of the NGOs/Firm to be appointed and ensure quality (production of training material, preparation of training module and program, conduction of the workshop/seminars etc.) and performance of the training activities. (4) Maintain liaisons with the major stakeholders of the project. (5) Assist in the preparation of the work plan, project report and brief. (6) Provide technical support to the PSC, PIC, TEC & NGOs Selection Committee (NSC). (7) Assist Selection Committee in Selection of NGOs/Firm etc. (8) Travel Intensively. (9) Other relevant aspects as directed by PD.

16.	Qualification and experience	Eligible Criteria: (1) Minimum Post-Graduate or equivalent degree from any recognized University. MBA, Economics & Law will be given preference. (2) Minimum 25 years training imparting experience or teaching experience. (3) Practical experience on man management (1 year practical man management experience in abroad will get priority). (4) Experience in preparing training module and programs. Skill in IT application will be given preference. (5) Familiar with the BDR activities and on border related issues. (6) Working experience with international organization such as WB, ADB will be given preference.
17.	Other details	Attested copy of certificates to prove qualification and experience etc. to be enclosed.
PROCURING ENTITY DETAILS
