Professor Dr. M. Rezwan Khan Vice Chancellor United International University

Message

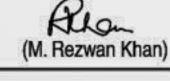

t gives me great pride and pleasure to utter my heartfelt congratulation to the first graduating class of United International University on the auspicious occasion of the first convocation of this university.

Since the beginning of our journey in 2003, UIU has strived forward with the commitment to provide to the students international standard education undergraduate, graduate levels along with state of the art research facilities. We believe in living up to our motto: Quest for Excellence. However; the guest for excellence is a continuous and relentless process. So let the 1st convocation be our inspiration to succeed further in the years ahead.

I give special thanks to the honorable chancellor and his office, the Ministry of Education and the UGC for always extending their support in the continued growth and development of UIU. I also thank the Chairperson and members of the Board of Trustees for their cooperation in the smooth management of the university. Finally, I must thank the faculty and staff of the university for their commitment, dedication and loyalty to UIU.

felicitate the graduates and their guardians once again and wish them notable success in their future endeavors.

KEEP AN EYE ON

UIU: The Quest for Excellence

UNITED INTERNATIONAL UNIVERSITY (UIU) was established out of the initiatives taken by a group of academicians with the generous support from United Group, a very successful business conglomerate in Bangladesh, with commitments to provide international standard education at undergraduate, graduate and doctoral level along with state of the art research facilities to the students. It received Government approval on June 6, 2003 and started its academic program in October 2003. Starting with only 76 students in October, 2003, now as of today, the number of registered students rose to 3856.

UIU Dhanmondi campus contains about 90,000 square feet floor space, having eight floors including two basements. Recently, in the wake of increasing trend of students' enrolment, "Shugandha Campus" - a four-storied building having similar facilities as that of Dhanmondi campus, in Karwan Bazar has been acquired. Furthermore, UIU has purchased 25 bigha land in the proposed "United City" where the permanent campus of UIU would be built up in a comprehensive manner.

Mission and Vision

The Mission of UIU is to produce excellent human capital with intellectual, creative, technical, moral and practical skills of the highest possible level. Its vision is to become the center of excellence in teaching and research in the South Asia region. To realize this mission and vision the strategy is to develop a united, interactive, involving and a caring relationship among teachers, students, guardians and employers.

Financial Award and Assistance

UIU has established a financial award scheme to attract and retain good students and facilitate education for meritorious students. Fulltime Undergraduate students may get 50% & 100% tuition fee waiver for the entire program based on the results of HSC or equivalent & Graduate students may also qualify for 15% to 25% tuition fee waiver for the entire program depending on their results in the previous exams. Undergraduate and Graduate students, however, have to maintain a minimum CGPA of 3.50 & 3.00 respectively in the subsequent trimester for the continuation of waiver. At the end of each trimester, a merit list of both undergraduate and graduate students is prepared for each program and top 30% students have the opportunity to avail 25% to 100% Scholarship in the following trimester provided a minimum GPA of 3.50 is scored. Out of these 30% students, first 5% students in the merit list enjoy 100% scholarship, next 10% students enjoy 50% scholarship and the next 15% students enjoy 25% scholarship. It is to be noted that UIU offered taka 2,40,93,948 and taka 3,78,68,970 scholarship in the year 2008 and 2009 respectively.

Co-curricular and Extra-curricular Activities

The Directorate of Student Affairs of UIU plays a critical role as the facilitator and organizer of students' co-curricular activities across UIU campuses. The co-curricular activities are promoted through a number of student clubs such as Debating Club, Photography and Journalism Club, Cultural Club, Sports Club, MBA Club and UIU Theater Some of the achievements of UIU in extracurricular activities are enumerated as follows:

Collaboration and joint venture work with various renowned educational and research institutions both at home and abroad will be able to make the students ready for the global market. Till to date UIU has signed MOU with WAKHOK University, Japan, University of New Burnswick, Canada, Clarkson University and University of Texas at Brownsvill, USA, University of Bradford, UK, University of Ulster, Northern Ireland and University of LUMIERE LYON2, France in order to being able not only to transfer credits but also to engage in faculty exchange and collaborative joint research program.

UIU has always been active in developing a working relationship with the industries by providing consultation services and involving in design and development. UIU has signed MOU with two renowned industries namely Energypac and Rahimafrooz for collaboration. Like UIU, these two industries are heavily involved in dissemination of renewable energy technology in Bangladesh and so far UIU has been involved in joint projects like solar PV based system design, design of low cost high quality charge controllers and other renewable energy related projects.

UIU as Coordinator in the EU sponsored eLINK Project

UIU worked as the coordinator from Bangladesh in the EU sponsored (EM ECW Ref: 149674-EM-1-2008-1-UK-ERAMUNDUS) eLINK (east west Link for Innovation, Networking and Knowledge exchange) project. The aim of eLINK project was to foster institutional co-operation in the field of higher education between the European Union and Third-countries through a mobility scheme addressing student and academic exchanges for the purpose of studying, teaching, training and research. Duration of the project was 45 months and worth 5.5 million EURO. Five host EU institutions invited third country students, teachers and researchers to carry out 10 months study/research activities funding of which were borne by European Union. These institutions are University of Bradford, UK, Staffordshire University, UK, Corvinus University of Budapest, Hungary, University of Sannio, Italy and University LUMIERE LYON2, France. The Asian partners who took part and coordinated the project are United International University, Bangladesh, College of Science and Technology, Bhutan, Kantipur Engineering College, Nepal, Mohammed Ali Jinnah University, Pakistan, Shanghai Jiao Tong University, China and Chiang Mai University, Thailand. From a total of 334 scholarships, Bangladesh enjoyed 85 scholarships.

UIU as Organizer of International Conferences and Seminars

In Bangladesh since 1997, International Conference on Computer and Information Technology (ICCIT) has been the most popular and well known yearly event on Information and Communication Technology (ICT). UIU has organized 10th ICCIT (ICCIT 2007) which for the first time managed to associate IEEE as the technical cosponsor. All the accepted papers were published in IEEE Xplore. In ICCIT 2007, out of 462 initial submissions 139 finally got accepted. A team of 69 reviewers, all from outside Bangladesh evaluated the manuscripts. Academicians and researchers from USA, Canada, UK, Japan, Australia, Iran, Korea and India participated in this international event.

Born with the mission "Quest for Excellence", UIU has marched a long way forward in this short span of time and singled out itself as one of the emerging quality private

universities in Bangladesh. This hard earned recognition is the result of a concerted efforts made by the students, teachers and management of UIU coupled with an

unprecedented patronage from the United Group. United International University will pursue a never ending quest for excellence to see itself in a couple of years the center of

Message

It was great to know that United International University (UIU) is going to hold its first Convocation on October 28, 2010. This will be a great occasion for UIU Graduates for which they have been anxiously waiting for some time. UIU is a private university that enjoys, as far as I know, full autonomy in terms of executing its academic programs and has the reputation of completing the degree courses within the stipulated period. I am sure, the students have taken full advantage of the calm educational environment in UIU campus and completed their studies without any loss of academic time.

The award of Degrees to the Graduates in the Convocation will formally place them in the highly competitive world where they will have to face Global challenges necessitating immediate steps for many to go for earning their own livelihood and for some others for pursuing higher education. It also goes without saying that the degrees earned by the students as a result of quality education delivered by the UIU will make them adequately knowledgeable and undoubtedly good human beings ready to contribute appropriately to the society in general. This is what they, being educated by using the country's resources whether private or public, owe to the nation as a for one who had been deeply associated with the

establishment of the first private university in Bangladesh, would urge upon all Graduates of UIU, a well-established private university, to promote education and research as they move on with their lives as without proper education a country cannot go forward. Graduates also must continue to maintain their association with their Alma Meter with a view to helping the fellow students to remain exclusively engaged in learning after which they would be free to choose their paths in life. There is no alternative to good education, appropriate knowledge and good behavior in order to set a successful life - whether in politics, business or in any other profession.

Message

It gives me great pleasure and honour to see that United International University is going to organize its 1st convocation on October 28, 2010. It is also a matter of great honor that I, on behalf of United International University (UIU), have got the opportunity to congratulate the graduating students on their successful completion of different programs at UIU.

Born with the mission "Quest for Excellence", UIU has

marched a long way forward in this short span of time and singled out itself as one of the emerging private universities in Bangladesh. This happy and joyous convocation marks another milestone in the path of progress and achievements of this university. Students graduating today, I am sure, will shine in their professional life and make us feel proud of them. On this auspicious day, I extend my heartiest

congratulations to the UIU management, including the Vice-Chancellor, Pro-Vice Chancellor, Deans, Department Heads, faculties, and the staff in making UIU what it is today. I thank them all for their cooperation and

I wish and pray our future will be even more brighter. Also I wish the Convocation Ceremony a success.
