

Lesson 7: What Are You Going to Do Tomorrow? (Class VI-VIII)
Materials Developed by: **BRAC University Centre for Languages**

Dear friends, we hope you enjoyed our pages full of learning activities. Today, we are going to talk about our future plans.

A My Plan for Tomorrow.

Hello, I am Hasan. I live in Jessore. Tomorrow is going to be a very busy day for me. I have decided to do some housework. I don't usually do much housework and my mother often scolds me for that. So, tomorrow I will help my mother do some chores. My room is quite dirty now and so, in the morning, I am going to clean my room properly. I am also going to wash a lot of my clothes which have become dirty. Most importantly, I am going to help out my mother with the cooking. I don't know much cooking but I will help her to cut vegetables and chop meat. I'm sure she will love it. And, in the evening, my mother is going to take me out for shopping as she has already promised me so.

Have you planned about tomorrow?

B My Plan for Next Friday

Friday is our holiday. Next Friday, I am going to visit my aunt's home in the village. I am very happy because almost all of my cousins are going to be there. I think I will have a good time as we have planned to do a lot of things throughout the day. I am going to catch fish in the river. Rana, my cousin, is going to bring fresh fruits from his garden. Tania will make some pithas for the day; but I am not sure about that as she is ill now. In the afternoon, we are going to take a boat trip in the river. I hope we will enjoy a lot.

Now, tell us what you are going to do next Friday.

C My Plan for Next Seven Years

Hi, I am Sakib. I read in class VII and I have made a plan for the next seven years. I want to be a great footballer. I am playing for my school team and I am a striker of the team. After my H.S.C, I will try to be a member of our national team. From next week, I am going to spend more time in the field. My father will take me to the National Stadium to watch a few matches next month. I hope I would learn some new techniques and skills from those matches. I am confident that I am going to be selected for our national team. I am sure Bangladesh will play in the world cup football one day, and I am going to be a proud member of the team.

What is your future plan?

D Here is a letter for you from Sarah. Let's read it.

Hello Friends,
How are you? It's almost the end of the year. My final exam has just finished, and the school is closed. I have planned to do a lot of things during the vacation. First, I am going to buy some new storybooks to read during the vacation. Then my parents are going to take me to Dhaka where my uncle lives. We will stay there for about a week. During that time, we will visit many places in Dhaka. My father is going to take me to Shishu Park, the National Museum and the Mirpur National Zoo. And, my mother is going to take me to a market where I will buy a new school bag for myself. We will also go to the Lalbag Fort if we have enough time.

What are you planning for your vacation? Write to me.
Love
Sarah.

Can you write a reply?

E Read the following paragraph about a girl and see what she wants to be in future:

I am Lima and I am a student of class VI. I want to continue my studies as I have already planned. I 1. pass HSC examinations in the year 2015. Then I am 2. to attend a medical college and study to 3. a doctor. In the coming years, I will study really hard so that I 4. attend a medical college. If I become a doctor, I will dedicate my 5. to serve the deprived people. I will 6. my village at least two days a week to treat the poor villagers free of cost. I am sure I am going to be a very popular 7. in future. All my friends and family members will be very proud of my achievements.

Can you guess the words in the blank spaces and write them below?

		1.					
2.							
						6.	
3.				5.			
4.							
		7.					

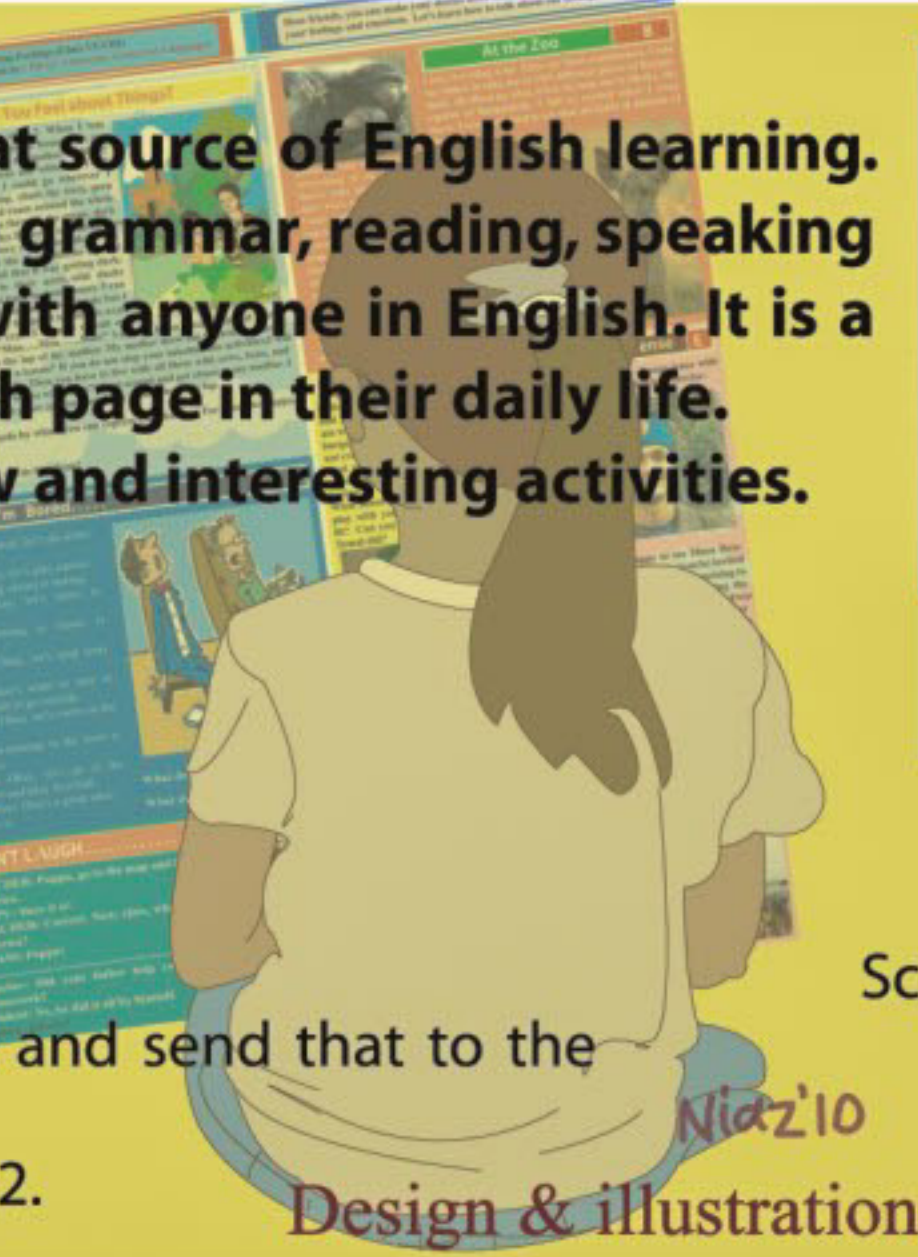

Find the answers in the next issue.

Write to Us

Dear English in Schools,
At the beginning, I want to tell that EIS page(vi-viii) is a great source of English learning. After reading all the pages, I feel that it improves my skills in grammar, reading, speaking and other activities. Now, I can easily make a conversation with anyone in English. It is a request by me for the EIS readers to use the experience of each page in their daily life. Finally, I hope that EIS makers will continue the page with new and interesting activities. Thank you.

I have a blue/blew kite. The wind blue/blew my kite across the playground. In the afternoon when I have nothing to do, I get bored/board. Sometimes, I play board/bored games with my sister, because I need a break/brake from all this homework. I will bye/by/buy a new kite and I will go to market bye/by/buy 5 pm today.

Foot over bridge ensures your safety...

Foot over bridge is made for safety of the pedestrians. Always use foot over bridge while crossing the busy roads. Never ever make any haste to cross the road where there is no over bridge. Don't risk your life trying to make a short cut.

Let us make the habit of using foot over bridge.
