BANGLADESH
Power Sector Development Technical Assistance Project
Credit No. 3913 BD and Grant No. H092 BD

REQUEST FOR EXPRESSIONS OF INTEREST (EOI) FOR CONSULTING SERVICES FOR A FEASIBILITY STUDY ON REPOWERING OF EXISTING POWER PLANTS OF BPDB

1. This request for expressions of interest follows the General Procurement of Notice for this project that appeared in UN Development Business online on April 22, 2004. The People's Republic of Bangladesh has received a credit and grant from the International Development Agency in the amount of US\$15.5 million equivalent and US\$ 26.91 equivalent under additional financing towards the cost of the Power Sector Development Technical Assistance (PSDTA) Project and it intends to apply part of the proceeds of this credit and grant to payment under the contracts for consulting services for "Consulting Services for a feasibility study on Repowering of Existing Power Plants of BPDB" which essentially involves replacing the existing gas fired steam boilers with Gas Turbines, HRSG, etc while retaining the existing steam turbine.

2. Bangladesh Power Development Board (BPDB) has taken an initiative for re-powering of the existing power plants under BPDB to improve the plant efficiency significantly and help better utilization of precious natural gas resources in future.

3. On this background, BPDB would like to take consultancy services from firm(s) to assess the technical and financial viability of conversion of four 210 MW steam units at Ghorasal and prepare a detailed project report (DPR) for re-powering one such unit. If the DPR is accepted then the consultant will develop the bidding documents and assist in selection of the EPC contractor for carrying out the Re-Powering. A consultant is now required to assist GOB in performing the above tasks. The Power Cell, Ministry of Power, Energy, and Mineral Resources now invites eligible consulting firms (consultant) to indicate their interest in providing the services. The Consultant will be a reputable firm having similar experience in power sector. The consultant will have adequate experience and knowledge of doing similar study previously.

4. Interested consultants must provide information indicating that they are qualified to perform the services. EOIs should include brochures, description of similar assignments, experience in similar conditions, summaries of firm's capability, availability of appropriate skills among key staff with short biographies (one paragraph), availability of resources, and snapshots of relevant transactional experience. The EOIs would be reviewed on the basis of the following:

- Registration of firm
- Age of firm
- Availability of key professionals
- Availability of resources
- Experience of the firm in similar task
- Experience of the firm in other works
- Support services of the firm

5. Consultants may associate to enhance their qualifications, but should mention whether association is in the form of a "joint venture" or "sub-consultancy". In the case of an association, all members or such "association" should have real and well defined inputs to the assignment and it is preferable to limit the total number of firms including their associates to maximum of four.

6. A consultant will be selected under QCBS method in accordance with the procedures set out in the World Bank's *Guidelines: Selection and Employment of Consultants by World Bank Borrowers, May 2004*.

7. Interested consultants may obtain additional information from the office at the address below during office hours i.e., 9:00 to 17:00 hours, Sunday to Thursday.

8. Expressions of interest (5 copies) must be delivered to the address below by 16 March, 2011.
