Journey Together for Better Health Care

Message
Chief Guest

The Hon'ble Prime Minister of the People's Republic of Bangladesh (Rank & Status of a Cabinet Minister) Health & Family Welfare & Social Welfare Ministry

Its a great honor and privilege for me to be a part of this "journey together for better health care" jointly organized by Aysha Memorial Specialised Hospital (Pvt.) Ltd. and Fortis Health Care Limited in this very pleasant morning. In this glovalize world, various health problems especially kidney, liver and heart are leading serious health hazards and has become a major threat in public. At this context, initiation for better health has been taken through a journey between Aysha Memorial and Fortis, Inshah Allah.

I hope this journey will last cordially among these organizations and contribute a landmark in improving the health status of the people of Bangladesh, especially those having kidney and heart diseases. I wish for the grand success of the journey together.

Thank You.

Jai Bangla, Jai Bangabandhu
Bangladesh live for ever

Professor (Dr.) Syed Modasser Ali

Chief Consultant Physician, BIRDEM & Ex Advisor to Former Care taker Govt.

It's an honor to be here in this very fruitful program of Aysha Memorial Specialised Hospital and Fortis Health Care Limited. Since we already know that Aysha Memorial is a very dedicated health care organization for its high quality care services, I hope this collaboration with Fortis will enhance better quality services, for Fortis is also a specialized health care organization committed to high quality patients' care. Wish this journey lasts longer with mutual understanding between these institutions and will be beneficial to both the parties and patients of Bangladesh attending both Aysha Memorial and Fortis. I wish every success of this Program.

Maj. Gen (Ret) Prof. Dr. A. R. Khan

Regional Director
Fortis Healthcare Limited

A very warm welcome to you all in the journey together for Better Health Care between Fortis Health Care Limited and Aysha Memorial Specialised Hospital (Pvt) Ltd. I am grateful to be a part of this conference jointly held by both Fortis and Aysha Memorial. I hope through this collaboration, both of the health institutions will be able to facilitate high quality health care services at affordable cost and also will help in uplifting the health status of the people of Bangladesh. Taking into consideration the major health problems, I hope this collaboration will contribute to some extend in minimizing the health issues of the people in Bangladesh. Expecting the success of this program.

Chairman
Aysha Memorial Specialised Hospital (Pvt.) Ltd

Established in 1997, Aysha Memorial Specialised Hospital is one of the leading hospitals inside the country. From its inception, this hospital is trying to give its best effort, but from 2004, it has emerged as the best in providing multidisciplinary speciality health care service all over its country.

The hi-tech health care facilities are part of the institution's main objective, that of providing patients with the highest level of service and personalised care at an affordable cost. Our future plan of expansion is to incorporate all super speciality disciplines under one roof and our commitment is to deliver total care to the humanity as a whole. Today it is a very pleasant and innovative message for all that Aysha Memorial Specialised Hospital (Pvt.) Ltd. has started its journey with Fortis Health Care Limited, Delhi, India for better health care. I hope this journey will be successful and beneficial for the people of Bangladesh.

I am very privileged to be a part of this very auspicious occasion of journey together between Aysha Memorial and Fortis for Better Health Care. It gave me an immense pleasure when I learned about the collaboration between these two specialized health organizations. Aysha has been successful in providing quality health care services at comprehensive cost and Fortis Health Care Limited is the largest and fastest growing hospital chain situated in Delhi, India. Hope this collaboration with Fortis brings out the best output in improving the health scenario in Bangladesh. I wish all the best for this journey.

Prof. Dr. Pran Gopal Datta

A Goal to Journey Together

Delightedly, we would like to inform about the new journey together for better health care by Aysha Memorial Specialized Hospital (Pvt.) Ltd. and Fortis Health Care Limited, Delhi, India formally through the conference to be held at Pan Pacific Sonargaon, Dhaka.

Aysha Memorial Specialized Hospital (Pvt.) Ltd. was established in 1996 with the prime vision of "Provision of people's fundamental requirement of health care" and motto of "not only business, but serving the humanity". Aysha carries vision of "adding years of healthy life to the people of Bangladesh. we want smiling face of our healthy nation". The health care centre inherits three modern operation theatres, ICU, PICU, NICU, High Dependency Unit (HDU), Haemodialysis unit as major services rather than other general services supported by highly sophisticated machineries. Moreover, Aysha Memorial plays social activities, concessions for the poor patients, Easy Health Card (EHC) and performing seminar, symposium. Not only that, this organization has been awarded as The Best Private Hospital in 2008 with "Mirror Health Award". It is further planning to develop itself as a cardiac hospital for which the team of renowned interventional cardiologist, Dr. Ashok Seth, from Fortis would be of most help.

As magnificent obsession "To create a world-class integrated health care delivery system in India entailing the finest medical skills combined with compassionate patient care" Fortis Health Care was established in 1996 by Late Dr. Parvinder Singh. In the very genesis of Fortis lies the passion to excel is what Fortis believes. Fortis Healthcare Ltd. has a network of over hospitals, Fortis commissioned its first hospital in 2001 at Mohali, near Chandigarh, and has expanded its Indian operations to 48 properties in 16 cities across 12 states. In recent years Fortis has acquired the ownership of Escort Hospital which is very well-known to Bangladesh.

Fortis Healthcare Ltd is committed to clinical excellence & patient centric healthcare, which is manifest in hospital design, patient services, medical programmes & the compassionate approach of medical & hospital staff. The network's capability covers multi-speciality & speciality centers that provide tertiary & quaternary healthcare to patients in the major medical specialties. With the journey together with Fortis Health Care, we believe that it would be highly beneficial for the people of Bangladesh to get pre and post treatment care in our own country with higher quality of health care services to the patients attending Fortis Health Care. Furthermore, Fortis Health Care could provide trainings to the health care professionals of Aysha Memorial Specialised Hospital if required, that would enhance their managerial skills and quality of health care services that they would provide. This will minimize the health related expenditures and somehow reduces the hazards of the patients and their parties that they might face in foreign land.

We hope that this journey will help to give a new rise in the health of the people of Bangladesh. Along with that Fortis Health Care Ltd. being pioneer in organ transplantation, it would be also a potential for Aysha Memorial Hospital to develop its teams in coming days.

Wishing a very good journey together.

Chairman
Cardiac Science
Fortis-Escort Hert Institute
New Delhi

On behalf of Fortis I welcome you all for this opening ceremony; the start of a very important partnership. My association with Bangladesh, both on the personal and professional front, has now been for decades. Every time I make a visit I keep adding another beautiful and memorable chapter to it. The love, affection and respect I receive here is often more than I get to it. Health is a state of complete physical, mental and social well-being, and not merely the absence of disease or infirmity. ~World Health Organization, 1948.

Our efforts in Healthcare as Fortis, jointly with the Govt. of Bangladesh, are primarily to provide the people of Bangladesh with Healthcare treatment facilities of premium quality at a price which is very affordable. The crystal clear vision of Fortis and strong value systems have made Fortis grow from a single Hospital at Mohali in the year 2001 to a group of 55 hospitals today. Fortis is establishing a network of healthcare facilities with a commitment to clinical and service quality leading to a higher degree of safety, better outcome and an overall satisfied patient. The company is also closely working with other leading healthcare providers and the Quality Council of India (QCI) in promoting quality in the Indian healthcare space.

would like to appreciate the efforts put in by the Govt. of Bangladesh to provide Health for all, which was also the theme for the year 2010 as declared by WHO. Presently, we are here for the opening ceremony of Fortis Centre through Aysha Memorial Hospital – Dhaka. In this mission, we assure you our best services in all ways.

Together, we definitely can make a difference ...

Chairman
Rupali Bank Limited

It gives me immense pleasure to join this conference today. Since Rupali Bank has been a corporate client of Aysha Memorial Hospital, we have been enjoying high quality health care services facilitated in its periphery. We hope by this joint collaboration with Fortis, our organization would also be benefited with further treatment facilities at Fortis. We hope Fortis will also be able to benefit and satisfy us with the similar kind of services as provided by Aysha Memorial Hospital. I, on behalf of Rupali Bank would like to congratulate both the organizations and wish for the success of their initiated journey together for better health care.

Fortis Healthcare Limited

We are happy to expand our presence in Bangladesh in partnership with Aysha Memorial Specialized Hospital. This is another step towards our commitment to provide cutting-edge medical technology and the finest in patient safety. This alliance would provide much needed support to the people of Bangladesh. Now patients will not only get quality healthcare at their door steps but it would also help the people of this region to get timely care at affordable cost.
