

Honest Growth

by Excellent People
with Excellent Products
to Excellent Customers

The Bangladesh pharmaceutical market is dominated by local manufacturing companies, with the capability of supplying 95% of the domestic demand for prescription medicines and with the top 10 companies sharing 70% of the value.

For the first time in the history of the local pharmaceutical industry, a Bangladeshi company, Apex Pharma Ltd., has assembled a top flight corporate management team with an unparalleled blend of local and international pharmaceutical expertise. The Apex Pharma management team has proven abilities of building successful businesses. Importantly, this team is being led by a dynamic and highly respected CEO with a proven track record of success in the pharmaceutical industry.

Apex Pharma's **people vision** is to have highly trained and knowledge based professionals, who will be recognized and admired by its customers, competitors and partners.

Apex Pharma is further investing in infrastructure to obtain export accreditations such as UK MHRA, Australian TGA and US FDA. These certifications form an essential part of Apex Pharma's **operational vision** of becoming a global centre of excellence for pharmaceutical manufacturing.

Apex Pharma's **innovative vision** is to partner with multinational companies to ensure the use of state-of-the-art manufacturing technologies to launch the latest products. These core commitments are the foundation on which Apex Pharma aims to deliver its **quality vision** of providing the highest standard, safe medicines. Importantly, these will complement Apex Pharma's **vision** of becoming a highly major player in Bangladesh

are the foundation on its **quality vision** of cost effective and developments **performance** respected by 2015.
