

# Rab team starts investigation

FROM PAGE 20  
members in connection with the shooting. Sources said the three-member probe team from Dhaka led by Mezbahuddin, additional director general (Director Training) of Rab, recorded statements of 11 witnesses, including the victim's mother, brother and uncle.

Manirul Huq, commanding officer of Rab-8 in Barisal, said the probe team is working independently without contacting local Rab and police and will submit its report directly to the director general of Rab.

Jhalakathi Senior Judicial Magistrate Nusrat Jahan on Sunday directed the officer-in-charge of Rajapur Police Station to register the petition of Limon's mother as a regular case and investigate the incident. The court order reached

the police station Monday.

The superintendent of police (SP) in Jhalakathi Md Shamsuddin and the officer-in-charge (OC) of Rajapur Police Station Tofazzal Hossain, however, went on leave from yesterday.

Contacted, the SP yesterday said as far as he knows the case is yet to be recorded. Sub-inspector Halim, now the acting OC of Rajapur Police Station, said the case will be recorded when the OC returns.

Meanwhile on Monday, police went to the spot and recorded statement of witnesses investigating the two cases filed by Rab against Limon.

Khalilur Rahman, Barisal district coordinator of Bangladesh Legal Aid Services Trust, said if the acting OC does not compile with the court order he [acting OC] would be

liable for contempt of court.

Nashimul Hassan, pleader of Limon's mother Henoara Begum's case, yesterday said he would move to the court for further action on Wednesday [today] if the case is not registered by then.

Meanwhile, in a press briefing at the home ministry yesterday, State Minister for Shamsul Haque Tuku said five probe bodies are working on the shooting incident. They are Rab headquarters, Jhalakathi Rab, a magistrate and two investigators.

Asked about formation of a probe committee by the home ministry, he reiterated that the ministry would form the committee if necessary. He urged reporters to visit the spot and find out what actually happened.

He however declined to comment further in this

regard.

On March 23, Limon was shot in the left leg allegedly by Rab personnel while he was bringing cattle home around 4:30pm. On March 27, his leg was amputated from the thigh due to tissue damage caused by excessive bleeding and delay in treatment.

In the night of the shooting, Rab issued a press release saying a team of Rab-8 went to Chhatra to arrest convicted criminal Morshed. Limon was one of Morshed's cohorts and the Rab personnel found him wounded. They also recovered some firearms, ammunition and sharp weapons from him, claimed the press release.

DG Rab Muklesur Rahman on Monday said Limon was accidentally hit by a bullet during a shootout between Rab and criminals. Limon is not a criminal, the DG added.

## Tigers search

FROM PAGE 20

Australia won by nine wickets, will always be remembered for Australia vice-captain Shane Watson's punishing innings of 185 which included a world record fifteen sixes, and served to highlight the gulf in class between the two teams.

Speaking after the match, Bangladesh batsman Shahriar Nafees said that the Tigers would have to forget about Watson's innings as it was a once-in-a-lifetime effort. Changes to the team are likely, with batsman Rokibul Hasan possibly having to make way for allrounder Alok Kapali. Embattled fast bowler Mashrafe Bin Mortaza, who missed the second game, may also get a look in.

Australia will probably hand seamer James Pattinson his ODI debut, and there may be a few more changes as this is also their last game of the season, and because the series is already won. Making a clean sweep of the series, however, is likely to be their top priority as they look to garner some confidence under the new leadership group of captain Michael Clarke and vice-captain Watson.

The match, the only day-night affair of the series, will be telecast live on NEO Cricket and BTV from 2:30pm.

## Carbon trading can bring \$80m to Bangladesh

UNB, Dhaka

Bangladesh can earn US\$ 80 million annually through selling carbon as carbon credit in the international market by using modern technology in brickfields surrounding Dhaka city, said a World Bank official.

Carbon Finance Coordinator of the World Bank, South Asia Region Michel JL Pommier informed it to Industries Minister Dilip Barua during a meeting at Shilpabhaban in the city yesterday. Former secretary and environmental consultant Syed Tanvir Hossain was also present.

If the opportunity of carbon trading can be spread throughout the country, Bangladesh can earn huge carbon credit. The total carbon emission from the brickfields in Dhaka is 8 million ton.

Issues related to environment pollution by the brickfields, shifting the brickfields to environment-friendly place, utilisation of modern technology, reducing carbon emission and World Bank's support in carbon trading were discussed in the meeting.

The WB representative Pommier said initiatives should be taken for the management of carbon like waste management of ship-breaking industry.

"Bangladesh can be benefited through producing and exporting environment-friendly bricks through using modern technology in the brickfields," he said.

He suggested for building a planned industrial zone for brickfields to produce environment-friendly bricks. The World Bank is keen to provide technical and financial support in this regard.

# Mutineers met secretly

FROM PAGE 20

Towhidul Alam.

The prosecutor said accused No. 31 and former BNP lawmaker Nasiruddin Ahmed Pintu encouraged the mutineers to attend the February 24 secret meeting.

He added charges against Pintu also include assisting the mutineers in the killings, dumping of bodies and arson attacks.

Kajol said Pintu also helped the accused flee after they committed the offences and brought out a procession.

"Assistance from such a leading personality encouraged the accused a lot to commit the crimes," Kajol told the court and appealed to frame charges against Pintu under different sections including sections 303 and 109 of the Penal Code.

"Political leaders often organise processions. Does it fall under sections 303 and 109 of the Penal Code?" the court asked the prosecutor. The prosecutor was also asked whether the accused made a statement under section 164 of the Criminal

Procedure Code.

The prosecutor replied in the negative but said there are three witnesses who had seen him helping the mutineers escape.

Earlier, Kajol said DAD Towhid led the mutiny, looting of arms and ammunition from the armoury, and attacks on army officers deputed to the then BDR that led to deaths of 74 people including 57 officers.

Towhid was also charged with leading the dumping of the bodies of officers and a team of mutineers to the official residence of the prime minister and hotel Ambala for negotiations.

The prosecutor told the court Towhid himself directed some mutineers to kill major Asad. He also declared himself as the director general of BDR and under his leadership the mutineers broke into the officers' residences to loot valuables.

Kajol said Towhid has made a confessional statement and there are enough pieces of evidence against him.

Judge Mohammad Zohurul Haque asked Towhid whether he heard the charges against him. Towhid claimed to be innocent and said the charges against him are false.

Some defence lawyers appealed to the court to record the statement of the accused after they submitted their arguments on the charges and the court agreed to it.

The prosecutor also told the court former BDR member Torab Ali knew about the conspiracy of the carnage a day before the mutiny but did not warn the authorities about it.

As the court asked him whether there is any service rule that a former member has to inform the authorities about such information, the prosecutor said it was his responsibility as a human being.

As many as 827 accused including 23 civilians were hauled before the court yesterday. Of the total 850 accused, two are dead and 21 have been absconding.

## Vacancy Announcement

Bangladesh

United Nations Development Programme (UNDP) - Bangladesh, invites applications from highly qualified, energetic, and experienced development professionals who want to join UNDP's dynamic working environment, for recruitment in the following position of the "Urban Partnerships for Poverty Reduction" Project:
