Water Resources Minister Ramesh Chandra Sen visits a breached portion of the Hard Point in Sirajganj town protection embankment, right, concrete blocks and sandbags being readied for throwing into the affected spot yesterday.

Erosion of Sirajganj dyke thwarted

A CORRESPONDENT, SIRAJGANJ

Further erosion by the river Jamuna at Hard Point of Sirajganj town protection embankment has been thwarted by throwing huge number of concrete blocks and sand bags in the breached portion.

Executive Engineer of Sirajganj Water Development Board (WDB) Abdul Malek said that the erosion is now under control and a four-member committee headed by the WDB chief engineer has started investigation into the embankment collapse.

The turbulent Jamuna devoured about 70-metre of the town protection embankment at hard point on July 18 and another 105-metre on July 21.

While visiting the breached portion at the hard point of Sirajganj town protection embankment yesterday, Water Resources Minister Ramesh Chandra Sen said the two affected spots will be repaired at any cost.

Steps have already been taken to prevent breach in other parts of the hard point, the minister said, adding that capital dredging in

the river at Sirajganj point will be started soon. Former engineer of Buet and IWMA Executive Director Dr Monwar Hossain, district Awami League acting President Mostafizur Rahman, head of the four member investigation team and Sadar upazila nirbahi officer (UNO) Mohammad Hossain were present.

Built in 1997 by a South Korean company with a 100 years' guarantee, parts of the town protection embankment collapsed on July 19 in 2010 and twice in 2009. Locals brought allegation against the authorities concerned of misappropriation in the repair of the dyke.

WDB sources said 24,000 blocks and 26,000 sand bags have so far been thrown in the breached portion of the embankment at hard point.

BNP lawmaker from Sirajganj-2 constituency Rumana Ahmed also visited the erosion-hit area yesterday morning. She blamed the authorities concerned for not taking effective steps to save the hard point.

Water level in the Jamuna at Sirajganj point marked a further rise and was flowing above the danger level yesterday.

HILI LAND PORT AREA 40 illegal structures demolished

OUR CORRESPONDENT, Dinajpur

At least 40 illegal structures were demolished around Hili land port in Hakimpur upazila on Friday to resolve water logging problem in the port area during the rainy season.

Deputy commissioner's (DC) office with the help of Hakimpur municipality launched the drive led by Md Tofazzal Hossain, executive magistrate, also UNO of Hakimpur upazila, in the morning.

Sources said that the DC office so far identified 125 establishments encroaching upon land on both sides of four-km road stretching from Zeroline to Hili port area.

Tofazzal Hossain said that the encroachers built structures on both sides

of the road causing water logging during the rainy season.

Most roads of Hakimpur town go under water as the stagnant water can not be drained out, he said.

The situation greatly hampers the trade through the Hili port, he pointed out.

A meeting at Dinajpur deputy commissioner's office held on July 19, headed by DC Jamal Uddin Ahmed, decided to remove the illegal structures on the 4km road to resolve the water logging problem.

The drive will continue for three more days, said Tofazzal Hossain.

Earlier the deputy commissioner's office issued notice to the encroachers to remove their establishments but to no effect.

Headmistress beaten up for TR fund 'share'

OUR CORRESPONDENT, Pabna

Criminals yesterday beat up the headmaster of Udoypur Registered Primary School in Sujanagar upazila under the district for declining to give them 'share' of the Test Relief (TR) fund allocated for development of the school.

With serious injuries, Hasina Begum, the victim, is undergoing treatment at the upazila health complex.

Identity of the criminals could not be ascertained immediately but a teacher on condition of anonymity said they are backed by local influential people.

"Three to four criminals

attacked me on the school premises at about 3:00pm today as I declined to meet their demand for giving them Tk 10 thousand from the Tk32 thousand allocated under the TR fund for development work in the school," the headmistress told this correspondent when he visited her at the health complex yesterday.

"After receiving the fund, I engaged workers for earth work. I also took initiative for repair work and buying benches for the students. But a few local criminals demanded Tk 10 thousand from me over cell phone two days ago. At about 3:00pm

today, they entered the school and again demanded the money. As I declined, they started beating me with sticks and iron rods," she said.

Hearing her scream, locals rushed to the spot, rescued her and took her to Sujanagar upazila health complex, Hasina Begum said, adding that the matter was brought to the knowledge of the upazila education officials and the police.

"Police visited the spot. I asked the victim to file a case. Action will be taken against the criminals after getting the case," said officer in charge of Sujanagar police station Md Ahsanul Haque.

Housewife electrocuted

UNB, Nilphamari

A housewife was electrocuted and three linemen of Palli Bidyut Samity (PBS) were injured at Paschim Bahali Para village in Sadar upazila on Friday night.

The deceased was identified as Safura Begum, 23.

Local sources said several linemen of district Palli Bidyut Samity were engaged in work for giving power line to the house of Safura at about 8pm without switching off the main power line.

At that time, a power transformer blasted, leaving three unidentified linemen injured.

The housewife was electrocuted as she went to make the power switch of her house on at the time of blast.

The injured were admitted to Sadar Hospital.

CCTVs in Panchagarh town to stop stalking

OUR CORRESPONDENT, Thakurgaon

The district administration has set up CC TVs at three points in Panchagarh town to resist stalking and sexual harassment.

Panchagarh Deputy Commissioner (DC) Md Tofazzal Hossain formally inaugurated the programme at a function at the conference room of his office on Wednesday.

"To resist the social menace of stalking, we have initially set up three CC TV surveillance system at different places to monitor the matter efficiently. Whenever such an incident will be seen on the monitor of CC TV police team with an executive magistrate will be sent to the spot," the DC said.

Within a short time several CC TVs will be set up at some other important places in the town that are regularly used by the school and college going girls, he said.

"It is possible to effectively check stalking as well as other crimes with the help of modern technology. The surveillance system has already been appreciated as a cost effective crime prevention device in the developed countries," the official added.

Officials of district and police administration, journalists, teachers and other professionals were present at the programme.

Recently the incidents of stalking and sexual harassment have increased in the town, locals said.

A bond of friendship between 2 cities

OUR CORRESPONDENT, Pabna

A bond of friendship has been established between Pabna municipality and Australian Parramatta City with naming of a road of the municipality after the Australian city.

John Chedid, mayor of Parramatta City Council, unveiled the plaque of the road beside Pabna municipality Friday morning.

Later, a reception was accorded to a four-member delegation of the city council at Pabna town Hall with municipality Mayor Kamrul Hassan Mintu in the chair.

Addressing the reception, Mayor John Chedid said Parramatta City and Pabna town will share experiences in education, medicare and business to their mutual benefit. He urged Bangladeshi businessmen to invest in Parramatta city because of ample scope for investment there.

Former adviser to the caretaker government Tapan Chowdhury, Pabna Deputy Commissioner Md Mostafizur Rahman, Superintendent of Police Jahangir Hossain and educationist Md Abdul Karim spoke.

They urged the members of the Australian delegation to encourage their businessmen to set up units at Ishwardi Export Processing Zone. They can invest here in garments or any other productive sectors, the speakers said.

Mayor Kamrul Hassan Mintu handed over the key of Pabna municipality to Parramatta City Mayor John Chedid at the function.

**Government of People's Republic of Bangladesh
Employment Opportunities
Regional Fisheries and Livestock Development Project, Noakhali Component**

The Regional Fisheries and Livestock Development Project (RFLDC), Noakhali Component is seeking to make a small number of new appointments as a result of resignations, maternity leave and an increasing workload in some parts of the project area. The Regional Fisheries and Livestock Development Component (RFLDC) is one of three components under DANIDA's Agricultural Sector Programme Support to Bangladesh. RFLDC began on October 1, 2006 and is now scheduled to end on December 31, 2012. The Noakhali Component is one of two Technical Support Units (TSU) at field level responsible for day-to-day component management.

The RFLDC follows an integrated, demand driven and participatory extension approach, involving a major capacity building effort with local farmers through Farmer Field School in the fisheries, livestock and related sectors. The Field School are expected to develop into Farmers' Organizations (Community-based Organizations), which develop strong links to the government and non-government service providers and the private sector input supply and marketing institutions. The Union Parishads are expected to have an important role in the Component through protection of the rights of the hardcore poor Component beneficiaries and through support to the CBOs, notably through allocation of an annual block grant.

The positions available are as follows:

1. Monitoring and Evaluation Manager (Officer)

Job Description
This is a full-time established position which has become vacant through the resignation of the current incumbent. The Monitoring and Evaluation Manager is had of the Component's Monitoring and Evaluation Unit. He/She supervise a small headquarters team (a MIS Officer and 2 Assistant M and E Officers) and a team of 10 field monitors working at Upazila level. His/her specific responsibilities are: recruitment of consultants for independent impact surveys; design and supervision of in-house topical surveys; supervision of implementation of PME for Farmer Field Schools, of data collection on CBO and private sector activities and of use of the Fisheries and Livestock Block Grant; preparation of draft reports; and coordination with his/her counterpart in the Barishal Component.

Qualifications
Masters degree (at least 2nd class CGPA 3.00) in Economics, with special assignments related to monitoring and evaluation/survey research. Application of such approaches in the fisheries and/or livestock sector for a period of at least 10 years. Strong computer skills in the use of relational database programmes and spreadsheet. Ability to communicate fluently and confidently in both spoken and written English; ability to write analytical reports on the various in-house studies conducted.

2. Upazila Coordinator (Master Roll: 2-3 positions)

Job Description
Upazila Coordinators are lower-level field management positions, responsible in small teams for the overall coordination of Component activities in groups of Upazilas in both the fisheries and livestock sub-sectors. Specific responsibilities are: supervision and monitoring of farmer field schools; oversight of capacity building activities in Community-based Organization and local government institutions, including development of business plans in the CBOs; coordination of workshops and other learning events; coordination with other strategic partners such as local agribusiness and Upazila Fisheries and Livestock Officers; organization and attendance of Upazila Coordination Meetings; attendance of Union Parishad standing Committee meetings and assistance in appraisal of Block Grant proposals. The Positions offered will involve appointment to work in some of the more isolated areas covered by the Project such as Urir Char in Sandwip, the Sonagazi charlands and the new chars of Subornochar/Hatiya. The positions are thus suitable for young men/women willing to take on the challenge of work in a difficult environment.

Qualifications
Bachelor's degree (Minimum 2nd class, CHPA 3.00) in either Fisheries or Livestock Science or a Social Science discipline related to Rural Development. At least 2 years experience in a poverty-oriented, participatory rural development approach in the field, preferably in a donor-funded project. A strong ability and commitment to work together with other officers in a small team are essential. Valid motorcycle driving license. Ability to communicate confidently in both spoken and written English; ability to write short analytical reports on aspects of the components progress to middle and senior management. Computer skills are a requirement.

3. Junior Monitoring Officer (Short-term (6 months)) Master Roll position; the position may be extendable based on performance.

Job Description
The Junior Monitoring Officer positions under RFLDC support the work of the Components Monitoring and Evaluation Unit. Their duties are: collection of data on all Component activities, including baseline data on Farmer Field School beneficiaries, CBO activities and private sector input supply and marketing; collection of data on special studies carried out by the Monitoring and Evaluation Unit and support to project extension activities in Field School and CBOs.

Qualification
The appointees will have a Bachelor's degree in Arts/Science/Commerce and at last 1 years experience in assignments related to survey research/monitoring. Ability to communicate at basic level in both spoken and written English is an advantage, as is the possession of a valid motorcycle driving license. The appointees must be willing to travel extensively in difficult conditions. The appointment interested in gaining experience in this area of work.

For position (1) a generous package of benefits is available to the right candidate in line with recently revised DANIDA Service Rules, including annual bonuses, gratuity and group medical benefits. The appointment may be made at Manager or Officer Level according to experience.

For positions (2) and (3), as Master Roll positions, the benefits available to regular staff are not available, but compensation will be offered in setting the salary level. For all positions, RFLDC especially welcomes applications from appropriately qualified female candidates.

Application should be made in hard copy only, enclosing a cover letter, the applicants updated CV, copies of certificates of education qualifications/experience and two passport sized photographs to the Project Director/Senior Advisor, Regional Fisheries and Livestock Development Project, Noakhali Component, House # 16, Road # 36, Majjdee Housing Estate, Noakhali-3800 before noon on August 4, 2011. Email applications will not be accepted. It may be noted that representation by or on behalf of a candidate to Project management during the recruitment process will result in disqualification of the candidate.
