

# A GIANT LEAP

# FOR THE FLAGSHIP

## **journey to a new era**

*The first Boeing 777 300ER of Biman fleet joins the fleet in October, 2011 thus making it a history for the flag-carrier and the nation as well. It's the beginning of a journey to a new era for the airline as it makes a quantum jump from second generation to fourth generation.*

## **bonding with the best**

*In April, 2008 Biman signed an agreement with industry leader Boeing for acquisition of 10 new Boeing aircraft for 1.3 billion US dollars. The first 02 of 04 Boeing 777 300ERs join the fleet in October and November this year. The historic event ushers in a new era.*

## **boeing 777—people's preference**

*The twin-engine Boeing 777 is the world's longest range jetliner. State-of-the-art passenger comfort makes the Boeing 777 the perennial favourite of frequent business travelers and economy travelers alike. A marvel of modern aviation engineering, Boeing 777 comes with all the stunning features of a flying machine that is dreamt of by others.*

## **non-stop to europe and beyond**

*Now that Biman is blessed with the best, non-stop and long-haul journeys are made easier than ever before. Come fly with us in the new Boeing 777 on non-stop flights to London, Manchester, Rome, Milan and Many More destinations in the coming days.*

**the wings of your freedom**
