Memo No: 51.211.014.00.00.057.2012-898 Dt. 27/2/2012

Country: Bangladesh
Project: Operation Support to the Employment Generation Program for the Poorest (EGPP)
IDA Loan No: 4833 BD

Request for Expression of Interest for Selection of a Consulting Firm for Development of a Web Based Management Information System with Support of GIS for EGPP
(Contract Package No: SD-6)

The People's Republic of Bangladesh has received a credit of US\$ 150 million from the International Development Association (IDA) to support the Employment Generation Program for the Poorest (EGPP) project. The EGPP comprises two components, namely, the main program component of USD 145 million (approx) which aims to support expansion of and reforms to the program, and the operational support component of approximately USD 5.00 (five) million which aims to provide direct support to the implementing agency, the Disaster Management & Relief Division (DMRD) of the Ministry of Food & Disaster Management (MOFDM) for implementation support and capacity strengthening.

2. The EGPP is an ongoing government program that provides short-term employment to manual labourers during the lean seasons (across two phases) per fiscal year. The objective of the EGPP is to provide such employment on community projects to enable households to better cope with vulnerability. All upazilas (sub-districts) of Bangladesh are covered by the program, which provides cash benefits to over half-a-million workers per work phase.

3. DMRD intends to apply part of the proceeds of this credit (from operational support component) towards the design, development and implementation of a Management Information System (MIS) for the EGPP under contract package No: SD-06.

4. The key responsibility of the consultant is: the collection, consolidation and analysis of streamlined data on beneficiaries, community projects, finances, payments etc for better program monitoring and evaluation. The MIS will focus on the functions being performed by program implementation personnel which comprises local and central governmental officials, to generate essential data and serve as a full-fledged decision-making tool. Data to be captured and analyzed by the MIS includes, but is not limited to beneficiary demographic information, work attendance information, community worksite location, supervisory committee information, community worksite progress indicators, payment information, grievance reports, and budgetary information among others.

5. The application is expected to be utilized by multiple users which include 334 users at the upazila level plus users at the office of Project Director, EGPP as well as DMRD. The MIS would have to be designed in a manner that allows expansion to all upazilas of the country. The MIS should also be able to generate data in certain pre-defined report formats for public access via the internet.

6. Major elements of the assignment include the following activities among others:

- System requirement assessment (data entry, reporting etc.)
- Software design, development, configuration and testing
- Data base/operating system license
- Preparation of user manual
- Training to relevant DMRD officials and upazila level local/central government officials
- Maintenance of data center
- Ongoing technical support

Detailed specification which will be subject to change, will be provided in the Request for Proposal (RFP) following short listing of qualified firms.

It is expected that the main part of the assignment will commence by April/2012 and completed by December/2012. This will involve the development and testing of an electronic beneficiary data base and back-end system in 334 upazilas. Installation and usage of the MIS would take place subsequently and technical service support will continue until project completion in December 2013.

7. The Project Director, Operation Support to the Employment Generation Program for the Poorest (EGPP) now invites eligible consultants to indicate their interest in providing the services. Interested consultants (firms) must provide information indicating that they are qualified to perform the services (Brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff etc.).

Consultants may associate to enhance their qualifications, but should mention whether the association is in the form of a "Joint Venture" or of "Sub-Consultancy". All members of such association should have real and well-defined inputs to the assignment.

The EOI would be reviewed on the basis of the following to prepare a short list:

- Registration of the Firm/Institute;
- Availability of appropriate skill among staff;
- Demonstrated capability to handle such assignment;
- Experience in similar task.

A consultant (consulting firm) will be selected in accordance with the procedures set out in the *World Bank's Guidelines: Selection and Employment of Consultants by World Bank Borrowers (May 2004, revised October 2006 and May 2010)*.

Interested consultants may obtain further information at the address below during office hours on all working days from 0900 to 1700 hours.

Expression of interest must be delivered to the address below by 2:00pm on 26th April/2012. Electronic submission of EOIs is not permitted under this notice.
