When you're the number 1 FMCG company in the country you need people who can't bear coming second

Unilever Bangladesh business sources substantial volumes of its end products from third party (3-P) suppliers. We are looking for Technical Consultant for the Supply Chain team to review operational controls at fundamental level and make necessary improvements to meet the Unilever standards in Safety/ Quality/ Productivity/ Engineering & Projects and Legal requirements for third party sourcing units.

The job holder will be responsible for following focus areas:

1. Ensure 3-P sourcing units implement the Unilever safety, health, environment and quality policies, systems and processes apart from adherence to local laws. Ensure compliance through rigorous audits, identifying gaps, preparing action plan, implementing actions as per plan to close the gaps in a regular manner.
2. Improve overall productivity of all 3-P sourcing units to match the benchmark in similar categories in the region by improving man hours /ton, maximizing output at minimum asset addition, improving flexibility and improving efficiencies across all functions of 3P units.
4. Implement Cost Effectiveness Programs in line with the targets and ensure execution of Engineering improvements and new capital projects in own and 3-P units including commissioning and stabilization.
5. Motivate 3-P teams, meet production plans on weekly/Daily basis and maintain liaison with suppliers

The Consultant will work closely with the Unilever 3P operations team and the 3P owners and employees for achieving the deliverables. The consultation assignment is for a period of one year only and the remuneration will be competitive. Candidates with leadership experience in managing sourcing units in the above areas should apply within 7 days to:
