SHAH ALAM SHAZU

Samia Said is the latest addition to a long list of Lux beauties, such as Momo, Bidya Sinha Meem, Mehzabien, Shanarei Debi Shanu and Rakhi. The recently crowned 'Lux Channel i Superstar' Samia is a student of Economics at the North South University. Samia is ecstatic about her achievements and now looks forward to cementing her place in the media.

Talking to The Daily Star, Samia says that she is yet to recover from the thrill of winning the title. "Although I'm yet to feel like a superstar, I'm enjoying the flood of greetings from all around," Samia says, adding that sleeping is now her primary form of leisure.

Samia wishes to focus on acting in TV okays, but she is also open to working in films belonging to the alternative trends. The latest Lux beauty also wants to be a recognised face in both the domestic and international modeling arenas. However, her recent success is keeping her busy these days, with regular interviews and photo sessions at different dailies of the country. She has already received an offer to work in a TV commercial, while there are also plans to fly to Singapore next month to perform at an award programme. During the competition, Samia had to stay at the camp and lead a disciplined life for grooming ses-

sions. The separation from family caused woes, she says, but the struggles were worth it as she won a great chance to launch herself. Samia stayed three months at the camp, except for the month of Ramadan, which she spent with her family. allows her to plan her future

more friends to help us out," added Brenton. basic beats, a guitarist to play a couple of accu "I used to take classical music lessons since rate chords and a good vocalist who sings in adolescence, as both my parents are singers; tune and voila! A new band is formed to join needless to say I was inspired by their music. I didn't initially have the idea of forming a Despite fierce competition from the sizeable band but performing covers of my favourite songs with my friends in a jamming pad was something I could not get over," said Ashreen, adding, "My parents were unaware of the fact other established names in the music industry. that I was in a band and I was afraid to let them know, thinking what would happen if they forbade me from being in one. Later, winner of 'ABC Radio Campus Campus Band when they actually did find out they were

> quite proud of me and their support of my music is something that keeps me going. The members of the band are more eage to do covers of certain music that would revolve around her voice and from the responses that they receive, their covers are top-notch. The band covers music starting from popular artistes and bands such as Dido, Adele, Nirvana, Avril Lavigne, Evanescence Green Day, Bryan Adams and many others. They are mostly known for their cover of "Zombie" from The Cranberries for which they always receive encores. Silverlight improvises a lot when performing, in which Siddarth Bosco, Zubair Farabi and Sheikh

Numairy have a huge role to play. "We don't stick to actual cover of the songs since sometimes it can get pretty monotonous. I grew up listening to the songs of Jimi

Hendrix and the power of his songs and solos inspired me big time. He is one my biggest influences. I try to cover each and every song with melodious lead solos from here and there and although the songs sound like the original ones, people can still notice and appreciate the little differences we make,"

The siblings, Numairy and Zubair, play bass and drums. "I am awfully glad that my brother is in this band. We can actually perform music at any time of the day and I love it," said Zubair. "Our parents are hugely supportive of me and my brother's music in Silverlight and we couldn't have asked for a better band to be in," added Numairy.

The band sticks strictly to jamming every Thursday. It doesn't matter how busy they are, they do show up at every one of their weekly jamming sessions, which certainly demonstrates their dedication. The band had their first single debut with "Shesh Bidaye" in March 2012 and are now on their way to make their own songs for an album. They are more into performing their own songs nowadays but at the end of every concert the audience would not let them go off the stage until they hear them sing the Cranberries classic, "Zombie". They promise to complete an album by the next two years and a band that is so determined will surely accomplish more than just one single album.

"Never stop dreaming. Always follow your dream and stick to it because some day it has to come true," is an adage that the band lives by and no doubt so would their countless

Busan Int'l Film Fest to screen Farooki's Television

There are good times ahead for popular filmmaker, ad maker and TV fiction director Mostafa Sarwar Farooki. His latest film "Television" will be screened at the 17th Busan International Film Festival, to be held in South Korea. A press conference was held in this regard at a restaurant in the capital yesterday

One of the major highlights of this festival is the fact that Farooki's "Television" will be the closing film. Wall Street Journal's headline reads -- "At Busan Film Festival, starring roles for Honk Kong and Bangladesh"; AFP says "A Honk Kong action thriller and a rural drama from Bangladesh will open and close Asia's top film festival": and the famous Screen Daily says -- "Busan to open with Cold War and close with Television".

The executive programmer of the Busan Film Festival sent a video message which was played for the audience. In the message he said that for a long time, Bangladeshi cinema was not ready to be featured or highlighted in international film festivals, but the recent advent of young and coming of age filmmakers is changing this idea. It is the youth who will bring Bangladeshi films forward and make a mark in the international

"This is my fourth film. I have Faridur Reza Sagar. tried to make a good film. Impress Tele-film Limited and others should come forward to produce more films, especially digital ones, so that young filmmakers get a boost," said Mostafa Sarwar Farooki.

Farooki speaks at the conference. Managing director of Channel i, Faridur Reza Sagar; litterateur

and dramatist Anisul Hoque; Mostafa Sarwar Farooki; actors -Mosharraf Karim, Chanchal Chowdhury and Tisha; noted directors -- Giasuddin Selim, Morshedul Islam, Mezbaur Rahman Suman and others were present at the press conference. Satellite TV channel Banglavision aired the press

conference live. "I usually get emotional after watching any TV play or film adapted from my story," said Anisul Hoque. "We are all familiar with

Mostafa Sarwar Farooki's works. I'm elated to know that the film 'Television' is going to Busan International Film Festival," said

Asked when the film will be released, Farooki said, "I hope the audio tracks will be released soon. The film may be released either in November or December is going to be screened on the this year."

World premiere of the film

"Television" will be held in Busan where director of the film Farooki will take part. There's more good news for Bangladesh. Young filmmaker Abu Shahed Emon's "The Container" is also competing in the Wide Angle Section of the

festival, which means that this year there are two Bangladeshi films to be shown at the Busan Film Festival. Busan International Film Festival, the biggest film festival

in Asia, will start on October 4. A total of 304 films from 75 countries will be screened at the festival. The festival will come to an end through screening of the film "Television" on October 13. The films that are generally screened both on the opening and on the concluding days are thought to be remarkable ones. It is worth mentioning that for the first time, a Bangladeshi film concluding day of the Busan International Film Festival.
