**BBC MEDIA ACTION**  
TRANSFORMING LIVES THROUGH MEDIA AROUND THE WORLD

**JOB VACANCY**

The BBC Media Action Bangladesh Branch Office of BBC Media Action registered in the UK uses media and communications to reduce poverty and promote human rights in developing countries. Currently on behalf of our Head Office, we are implementing "Global Grant Health Project" in Bangladesh. BBC Media Action is the independent international charity of the BBC. Our mission is to improve the quality of people's lives in developing and transitional countries through innovative use of media. We do this through our focus on health, governance, livelihoods, climate change and humanitarian response. BBC Media Action has been assigned a Global Grant from the UK Department for International Development (DFID) to deliver media for development projects in 14 different countries over 5 years. These projects will focus on the themes of Governance, Health and Resilience and Preparedness. In Bangladesh, BBC Media Action is about to launch an exciting new prime time continuing drama series based on maternal and neonatal health. The drama will be designed as three series, transmitting on BTV, Bangladesh state owned national television station in 2014, 2015 and 2016. The production will be designed as a series and be produced so that there is running themes through all episodes and a climax at the end of the first series, to lead us into following series.

In this connection we are looking for any interested and potential candidates for the following positions.

**EXECUTIVE PRODUCER  
PRODUCTION MANAGER  
LEAD SCRIPTWRITER**

For detail job descriptions and specification of the position please visit <http://hotjobs.bdjobs.com/jobs/bbcmmediaaction/bbcmmediaaction25.htm> <http://hotjobs.bdjobs.com/jobs/bbcmmediaaction/bbcmmediaaction26.htm> <http://hotjobs.bdjobs.com/jobs/bbcmmediaaction/bbcmmediaaction27.htm>

Interested applicants should send their CVs along with Cover Letter detailing (in 1000 words or less) how their qualifications, skills, abilities and experience meet the specific requirements of the role, as outlined in the job description. Please send applications to HR, BBC Media Action, Dhaka at [applications@bd.bbcmmediaaction.org](mailto:applications@bd.bbcmmediaaction.org) mentioning the position in the subject field. Applicants from any nationality can apply for the following position. The deadline for receiving applications is 12 October 2012.

**The BBC is an equal opportunity employer.**

**西安墙体材料研究院**  
Xi'an Research and Design Institute of Wall & Roof Materials  
Address: No. 6, Chang'an South Road, Xi'an, China. Tel: 0086-29-85221893

**Request for Expression of Interest to invest in Improved ZigZag Kilns**

The brick industry in Bangladesh has been trapped in a low technology, low income, business-as-usual (BAU) cycle for most of its existence. This has led the industry to become the single largest stationary source of smoke and SPM contamination and the largest emitter of GHG emissions in the country. In this context the Department of Environment (DoE) with the assistance of the World Bank has embarked upon a program to bring about a transformational change to "clean" the industry and make it resource efficient. To achieve these goals, the program will demonstrate a number of technology options and create an environment for their adoption.

The Xi'an Institute of Wall & Roof Materials now invites expressions of interest (EOI) from prospective entrepreneurs who are interested to invest in kilns using the newly Improved ZigZag technology. Under this invitation, the Institute will build seven plants in the seven divisions. Xian will supervise construction of the new kilns, train workers and assist in operating the plant for a period of three months. The entrepreneurs will own, manage and operate the plants. The goal of these demonstration projects is to make evident that the new technology will reduce energy use by at least 30% and pollution by approximately 70-80% when compared to the Fixed Chimney Kiln (FCK).

The new kilns are annular with permanent roofs, insulated side walls and waste heat recovery systems which can be used in future to dry bricks. Green bricks with fuel embedded in them will be mechanically produced using vacuum extruders and mixing machines. The capacity of each plant is about 30,000 pieces per day.

The estimated cost of each plant is about Tk.1.3 to Tk.1.4 crore. These include costs for the construction of kilns and green brick production line. They do not, however, include cost of land, land development and other related costs.

Consultancy and other services will be provided free of cost. Entrepreneurs will cover projects costs, either from equity or from equity and loan. The Institute will provide detailed feasibility studies and also assist with familiarizing banks/financial institutions with the new technologies.

Prospective entrepreneurs may download the "Application Form for Improved Zig Zag Technology Kilns" from the website of our local partner at [www.cea-bd.com](http://www.cea-bd.com). Alternatively, a hard copy can also be obtained from the offices of Clean Energy Alternatives. Entrepreneurs will be selected on the basis of a number of criteria some of which are listed in the website. The Institute reserves the right to accept or reject any application without assigning any reason.

Applications will be received until COB 25th October, 2012 at the following address.
