## China unveils new leadership

Jinping takes reins of CPC

THE GUARDIAN ONLINE

Xi Jinping took the reins of both the Communist party and the military in China yesterday morning, before introducing the broadly conservative team who will lead the country with him.

After five years as heir apparent, 59-year-old Xi gave a confident performance as he introduced his colleagues to the waiting media.

She said people were suffering from a sense of insecurity, as law enforcement agencies in many cases had been
