Chief Engineer CUET, Chittagong-4349		

When you're the number 1 FMCG company in the country you need people who can't bear coming second

General Factory Manager
If you are a dynamic, experienced Supply Chain professional with passion, then this could be a position for you.

We are looking for
A dynamic supply chain professional, who can independently support Supply Chain business unit to design and build a strategy to deliver the Business Objectives at Competitive Cost, Quality and Customer Service.

General Factory Manager
The General Factory Manager is responsible for operating factories as per agreed standards. The position leads manufacturing activities in Supply Unit to achieve desired service level on time. The GFM delivers site targets following the supply chain and category strategies including targets on service, costs, productivity, quality, innovation and OSHE.

- Deploy and deliver to annual plan and financial results including targets on service, costs, productivity, quality, innovation and OSHE.
- Recommend long term site strategic plans to the Regional Category and Supply Chain leadership teams.
- Lead the sourcing units to develop and implement continuous improvement plans to deliver site targets- manufacturing performance management.
- Manage and deliver sourcing units financial results: annual budgets, SUR, conversion costs and create programs to deliver financial results.
- Engage and facilitate the implementation of innovations on the sites, for products, ways of working, service models and supply chain models.
- Propose, agree on category technology and implement the necessary capital investment to meet the planned production requirements, safety, environmental and cost targets.
- Pursue a site long term plan, including restructuring, re-engineering, and retrofitting as agreed by Supply Chain Category Leadership, prioritize and plan resources development and deployment.
- Ensure that the technical standards of all manufacturing and nonmanufacturing fixed assets are maintained. Enable the Sourcing Unit operations to achieve high level of customer service at optimal cost.
- Support TPM activities and teams by leading the TPM Steering Committee.
- Co-ordinate and direct the Sourcing Unit and Co-packer operations to achieve the agreed production plans at the specific product quality with optimum labor, energy and material utilization.
- Ensure Working Capital Management Systems are effectively used to deliver inventory targets set with Regional Category Planning teams and Regional Supply Management teams are met.
- Co-ordinate and direct the Quality Management in line with QA system and ISO 9000 procedures.
- Lead HR policy deployment and implementation on sites, including Management of Employee relations.
- Ensure effective local stakeholders management & community issues aligned with Company Policies.
- Guard and ensure the application of all company policies and governance requirements.
- Lead on initiatives and projects aiming for sites integration and collaborative work along the extended supply chain.
- Statutory Head of Sourcing Unit where there is a legal separation.

Ideally, you should have

- Over 15 years of successful experience in Supply Chain (Make/Technology, SHE, Quality are must) with minimum 10 years in leadership roles.
- Over 8 years experience of independently leading and managing large factories in Home Care, Personal Care & Foods categories.
- Robust Cross Functional Business Understanding with Commercial Acumen
- Technology Knowledge & Manufacturing Management
- People management skills
- Strong communication and interpersonal skills

The job offers a competitive remuneration and benefit package. The position is intended to be filled up at the earliest.

Please forward your resume before 6th of January to Recruitment.ubl@unilever.com
