Save the Children in Bangladesh is implementing the project under USAID funded Maternal and Child Health Integrated Program (MCHIP) titled 'Strengthening District health and Key Service Delivery Systems in Bangladesh (DHSS)' (Cooperative Agreement No HGS-A-00-08-00002-00). The goal of the program is to assist MOH&FW in scaling up lessons from MaMoni through evidence-based, high-impact maternal, newborn, family planning and nutrition interventions to contribute towards significant reductions in maternal and child mortality and progress toward MDG 4 and 5 in Bangladesh with the following four objectives -

- To ensure that, a conducive national environment at policy and strategic level is advocated to ensure effective implementation of evidence based MNHFPN interventions.
- To ensure that, all essential components of district, upazilla, union and ward level health systems are efficient to support MNHFPN service delivery in an integrated and sustainable manner and programs are implemented and monitored under a customized comprehensive district plan and leadership.
- To ensure that critical and life saving MNHFPN interventions are available and delivered at optimal quality of care at the community based service delivery points and from the strategically located facilities.
