History
The idea of establishing a private university to provide quality education at an affordable cost in Bangladesh was first mooted by a group of prominent academics, business leaders, professionals and education enthusiasts led by Dr. Mohammed Farashuddin. With this end in view, this group formed a non-profit, non-political, charitable organization called Progoti Foundation for Education and Development (PFED). East West University is its first major project. With permission from the Government under the Private University Act (Act 34) of 1992, East West University was launched in 1996. Classes started in September 1996 with 6 faculty members and 20 students at 43, Mohakhali Commercial Area, Dhaka. At present, there are over 294 faculty members and approximately 8000 students enrolled through stringent admission tests.

VICE-CHANCELLOR
East West University

One of the most exciting and emotive events in an educated person's life is attendance at the convocation ceremony of his/her institution on graduation. As we congratulate these young men and women on their achievement, we also feel elated that we helped them to some extent to earn it, though, of course, the credit goes mostly to them - for their attending classes every day of every term, even the make up classes for days lost on account of circumstances beyond our control, for their hours of intensive study before examinations and assignments, and for their active participation in all co-curricular activities which made their student life here possibly a bit more comfortable in a symbiotic way. We also congratulate and thank the parents and other family members of the students for giving them the support they needed.

We wish all graduating students the very best for even greater challenges waiting for them in their working life, and are confident they are now well-prepared.
