

# THE NIGHTMARE GOES ON

**W**ITH over 11 days gone by since Rana Plaza came crashing down, many relatives have given up hope of a miracle and find their loved ones alive. Many are seen staying at Adhar Chandra High School playground in Savar with missing posters in their hands. In tears, they wait there as the authorities take the bodies they recover to the school playground first for identification. The death toll has gone over 550 in the country's worst building collapse ever. But considering the number of people still waiting for the remains of their loved ones, it is obvious that many more remain under the rubble of the building.
