impact and be sustainable," the agreement "would need a broad coalition of brands," H&M said in a statement.

ted a company to the goal of a safe and sustainable garment industry in Bangladesh "in which no worker needs to fear fires, building collapses or other accidents that could be prevented with reasonable health and safety measures," according to the statement.

"Fire and building safety are extremely important issues for us and we put a lot of effort and resources within this area," said Helena Helmersson, head of sustainability at the retailer.

H&M and Gap were the target of an online petition that obtained more than 900,000 signatures and was sponsored by Avaaz, a human rights group. The petition said, "Your companies and other multinationals profit from cheap labour, and can do much more to reduce the dangers of the places where your products are made."

"H&M's decision to sign the accord is crucial," said Scott Nova, executive director of the Worker Rights Consortium, a Washingtonbased factory monitoring

Earlier on Saturday, the delegation met Khaleda and gave her UN Secretary-General Ban Kimoon's letter.

At yesterday's meeting, the BNP chief welcomed the UN initiative for helping the political parties in Bangladesh reach a consen-

The five-member delegation led by Oscar Fernández-Taranco, UN assistant secretary general for political affairs, held talks with a BNP team led by the party chief at her Gulshan residence yesterday afternoon.

A one-to-one meeting between Khaleda and Fernández-Taranco for over an hour preceded the talks between the two teams.

Replying to a query, a top BNP leader said the chairperson had told the UN delegation that her party was not attaching any condition for talks with the government.

Briefing journalists after the meeting, BNP Vice-Chairman Shamsher Mobin Chowdhury said, "The party chief hopes an amicable solution will be found and the problems will be resolved as well."

Meanwhile, a leader who was present at the meeting told The Daily Star, "The chairperson explained to the UN team that the opposition was not giving any precondition for the dialogue as claimed by

the government." Khaleda also informed the UN team about the "government's oppression and filing of false cases" against opposition leaders, and expressed doubt about the government's sincerity about the

dialogue, he said. In reply, the UN team told Khaleda that the government had assured it of releasing the opposition leaders now behind bars, the BNP leader added. AL ALSO HOPEFUL

The ruling Awami League is hopeful about reaching a consensus with the BNP over a polls-time government through talks.

"I think the ice will begin to melt once the dialogue kicks off,"

to budge from their rigid stance, and only then things will start changing for the better," added the

Minister Matia Chowdhury said they are sincere about holding the dialogue as early as possible, and a formal initiative in this regard would be taken soon.

"We are taking the UN envoy's call for an immediate dialogue with utmost urgency," said

"no work, no pay" policy, said former BGMEA president Abdus Salam Murshedy, who was present at the briefing.

"We hoped the workers would resume work peacefully after the government had announces wage board for them on Sunday. But even today [Monday] they [workers] vandalised many factories in Ashulia, said Atiqul Islam.

The closure would lead to a direct loss of around Tk 50 crore a day, he added.

The indirect loss, he said, was enormous as the garment makers would have to ship their produce by air and bear the additional fare from their pockets. Besides, the owners might face order cancellations and delayed payments by buyers.

The workers, he said, were demanding a minimum wage of Tk 8,000, higher bonuses, and allowances for tiffin and transportation. "They [workers] should raise such demands after the formation of the wage board." All incidents of unrest

occur at Ashulia, where all the state-of-the-art factories are located, said Atiqul. "This indicates that a vested quarter is trying to vandalise the most modern garment factories."

Ninety-nine percent

workers joined their works and want to work peacefully; only one percent was not interested in joining work, he said adding that this one percent was damaging the sector.

Contacted, former BGMEA president Murshedy said it was difficult to calculate the exact amount of loss for one day's production suspension in Ashulia, but it was

"Of the total \$ 20 billion yearly export of garment products, Ashuliabased factories supply 15 percent, he noted.

Murshedy said this time the unrest was different, as workers had vandalised factories even after the announcement of the wage board. In July last year, gar-

ment makers at Ashulia and Savar areas kept their factories closed for two weeks due to a massive labour unrest. The trouble followed a

rumour that a worker had died at an Ashulia-based factory of Ha-Meem Group, a leading garment

ment system within 48

A senior leader of the alliance, seeking anonymity, said the alliance does not want to organise the rally without the police's permission so as not to give the government a chance to accuse the opposition leaders and file cases against them. This precautionary step

was thought of as Jamaat-e-Islami -- the key component of the alliance -- might stage occurrences after the rally, in support of today's countrywide shutdown. Besides, a United Nations

team in Bangladesh called upon the political parties to sit for dialogues to resolve the current political may-The anonymous leader

added, should any occurrences take place after the rally, it would hamper the image of the opposition in the eyes of the delegates. But, if the permission by the police is not granted, the UN team would be shown how the government set embargoes on the opposition.

## HC clears

FROM PAGE 16 In the petition, it was alleged that the procedure required for the elections has not been completed.

In response to the petition, the court ruled that the EC must update voter lists of the DCC (north south) complying with the electoral rules and the government authorities have to determine the number of wards and councillors three months before holding the

polls. In their reply, the EC and the government recently told the court that they have updated the voter list and delimited the areas of Dhaka City Corporation (DCC) wards according to the Local

Government (City Corporation) Act-2009. "There is no legal bar to holding the polls as both the government and the Election Commission have completed the legal procedure," Manzill Murshid,

who had filed the writ petition, told The Daily Star. The tenure of the unified DCC expired on May 14, 2007. But the election could not be held due to

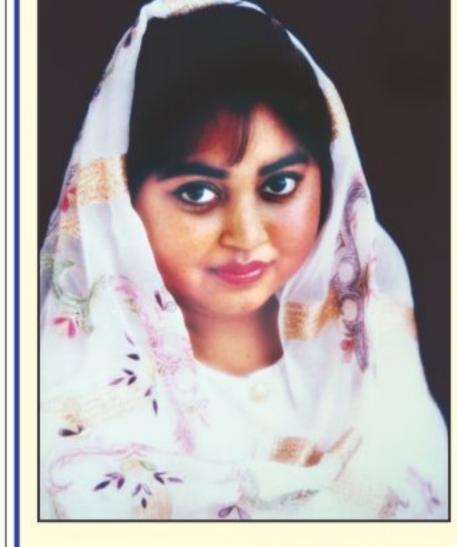

the state of emergency at that time. The past EC led by ATM Shamsul Huda had also moved to hold the polls on

May 31, 2010. But the then government did not let them do so. Later, the government

split the DCC into two on November 4, 2011 and appointed administrators to run them by removing mayor Sadek Hossain Khoka, who was elected in April, 2002.
