Great futures start here!

UNIVERSITÉ BISHOP'S UNIVERSITY

BISHOP'S UNIVERSITY

Older than Canada itself, Bishop's was established in 1843

In 1843, the foundersdeclared their intention "to offer to the country a sound and liberal education." To this day, Bishop's primary focus remains teaching and the liberal education of undergraduate students.

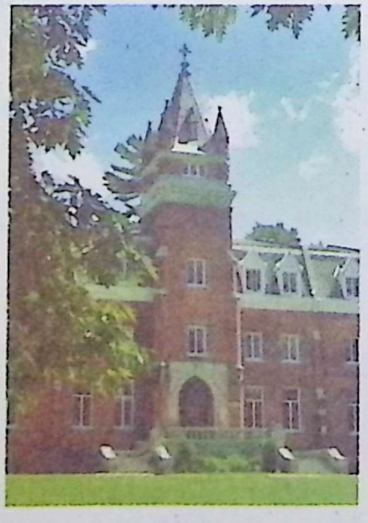

Nestled in the English borough of Lennoxville in the safe, friendly, culturally diverse city of Sherbrooke, an hour and a half from Montreal, Bishop's is an English university offering programs in Business, Education, Natural Science, Social Sciences and the Humanities.

Big enough to explore something new every day; small enough that you'll always be running into someone you know.

Bishop's has exceptional indoor and outdoor facilities that cater to the 3,000+ people who live, work and study here every day. Bishop's campus is spread out over a stunning 550 acres of land. The university's facilities include seven residence halls, two libraries, two theatres, state-of-the-art classrooms, laboratory and athletic facilities, an ice rink, a historic chapel, music recital hall, and daycare centre. A duck pond and wildlife refuge, 10 tennis courts, an outdoor pool, and golf course are also found on the school grounds.

Many of Bishop's studentschoose to stay on-campus during their studies.Residence is guaranteed for first year students who meet the application deadline.Athletics, recreation and intramural sports are a big part of Bishop's culture. All Bishop's students automatically receive a membership to the sports centre.Students are encouraged to participate in the 100+ clubs and societies on campus.

At Bishop's you'll be encouraged to explore and expand on your interests both inside and outside the classroom. Why? Because, as Mr. Scott Duguay, Bishop's Director Enrolment Management, points out,"joining a club is a great way to gain social confidence, experiment with the big ideas you are brushing up against in the classroom, and contribute to the community and campus life."

Preparing for Success: The Value ofLiberal Education

A liberal education can empower individuals to deal with complexity, diversity, and change. It prepares students for success in their future careers.

A Bishop's degree means you will acquire a marketable, job-ready specialization in one area and also develop strong intellectual and practical skills such as written and interpersonal communication and analytical problem-solving skills.

Bishop's University Principal, Michael Goldbloom describes the benefits, "employers worldwide consistently express a preference for students who can communicate effectively, think critically and bring creative solutions to the table...a Bishop's education is a solid foundation that will serve you well in the ever-changing global job market."
