*IT'S NOT ABOUT WHAT YOU BUILD,  
IT'S ABOUT WHO YOU BUILD IT FOR.*

We are Telenor Group.

In Bangladesh, you'll know us as Grameenphone.

We believe that digital communication is not just about technology, but about people.

And about making their lives easier, better and more productive.

Like thousands of Bangladeshis living in remote areas, now connected by some 500 digitally equipped Community Information Centres.

Or the young musicians building profitable careers through our Digital Rights Management plan.

It's people across the country paying utility bills from their mobiles with Billpay.

And it's new and expectant mothers getting life-saving information on their phones.

It's also teachers in towns who are now teaching children in isolated villages through our Online Schooling initiative.

These are just a few of the products, services and innovations that we have launched and which over 160 million Bangladeshis are already using today.

Now, they will also be sharing and streaming content on the move with the introduction of our new 3G mobile service.
