Thousands use 'risky' bridge over Kaliganga for long

HABIBUR RAHMAN, Pirojpur

Thousands of people including locals and visitors are using a risky bridge over the Kaliganga River connecting Nazirpur Sadar and Sriramkathi unions at Kalibari in Nazirpur upazila under the district.

Although there is another bridge at a short distance from the old risky bridge, people still use the old one as it shortens their way.

Recently the authorities removed several concrete slabs from the bridge to

discourage people from using it and save it from further damage.

However, goods-laden trawlers plying the river often hit the bridge, adding to its damage, locals said.

"Despite trying for long, Sriramkathi union parishad chairman MA Malek Bepary and I have failed to repair the bridge due to lack of financial support," said Mosharrif Hossain Khan, chairman of Nazirpur Sadar union parishad.

"A meeting of the upazila parishad on December 28

took a decision to repair the bridge. We have stopped vehicular movement over the bridge. Now only people use it for crossing the river," he added.

"We have decided to use Tk 8.5 lakh from the upazila parishad fund for repairing the bridge. It will take at least one and a half months to complete the process. To avert accidents, we will set some wooden support in the bridge for the time being," said Amulya Ranjan Halder, chairman of Nazirpur upazila parishad.
