**Chittagong Water Supply and Sewerage Authority (CWASA)**

Chittagong Water Supply Improvement and Sanitation Project (CWSISP)

**Request for Expressions of Interest (Individual Consultant)**

The Government of the People's Republic of Bangladesh (GoB) has received a credit for the Chittagong Water Supply Improvement and Sanitation Project (CWSISP) for Chittagong Water Supply and Sewerage Authority (CWASA) from the International Development Association (IDA) and intends to apply a part of the proceeds of this credit to pay for procurement of services from national consultants. As a part of the duties, She/he will assist the Project Management Unit (PMU), CWSISP, CWASA by providing expert services in laboratory management.

CWASA now invites eligible national individuals to submit their Expressions of Interest (EOI) for providing the services mentioned below. The consultant will work under the directives and guidance of the Project Director of the CWSISP, Chittagong WASA.

**Brief terms of reference:**

1. Name of the post: **Individual Laboratory Support Consultant (National) Package S-29**
2. Scope of Work of the Individual Laboratory Support Consultant (National):

The broad tasks to meet the objective of this consultancy will include, but not necessarily be limited to the following

- Carry out a comprehensive review of the current CWASA water quality monitoring systems, programs and or plans.
- Review existing best practices in the monitoring of water quality for urban water supply systems relevant to the City of Chittagong. This is to include the feasibility of establishing water safety plans for CWASA.
- Work with the Water Quality laboratory staff and develop a water quality management system/plan or program that:

0 Ensures amongst others:

- Effective identification of hazardous events (water quality hazards), their location within the water supply system (i.e. from water source, treatment and distribution up to the customer's premises).
- Control/mitigation for hazardous events including detailed corrective measures to be undertaken.

0 Has the optimal selection with justification of water quality parameters to be monitored from the raw water source, water treatment and the distribution network and which meets the national and international standards.

0 Has clear frequency of monitoring of the parameters (daily, weekly, monthly and every three months) including the development of a detailed sampling plan for the Chittagong water supply service area and that meets national and international water quality monitoring/sampling standards.

0 Has Standard Operating Procedures (SOPs) and Quality Assurance and Quality Control (QAQC) procedures for major equipments and processes.

• Identify additional equipment and facilities required for the effective implementation of the water quality management system/program.

• Prepare document on technical specification, bid document, technical evaluation etc. regarding laboratory setup/up-gradation.

• Investigate laboratory testing methods, efficiency and reporting;

• Quantify overall improvement package and make recommendations on necessary actions;

• Train up CWASA staff on water quality monitoring through sampling, analysis, GPL, SOPs etc. and on-site and off-site testing documentation and preparation of periodical reports with conducting QA/QC and OJT program;

• Develop baseline water quality database of all production tube wells and surface water for future reference

• Prepare "Laboratory Management Document"

• Participate in meetings with PMU/CWASA/WB etc. as and when required; and

Review and document all the activities on the work for successful completion of the planned work program.

3. Duration: Twelve (12) months this may increase or reduce based on the necessity of the project and performance.

4. Key qualifications:

• Should have advanced degree in analytical or related sciences (i.e., Ph.D/M.Sc. in Chemistry, Applied Chemistry, Biochemistry, Pharmacy or other subjects which include courses on chemical analysis, B.Sc. (Engg.) in Chemical, Environment, Water Resources etc.) with more than 15 years of experience in the areas relevant to the planned work in this TOR.

• Strong qualifications and demonstrated experience in working with equipment and especially in QAQC programs; and

• Experience relating to writing of quality reports and some familiarity with GIS mapping.

5. Selection procedures:

CWASA now seeks the application from eligible applicants to express their interest in providing services (complete CV with detail information about employment history with duties and responsibilities, current remuneration, academic details, major publication (if any), contract address including telephone number and e-mail). The consultants will be selected in accordance with World Bank Guidelines: Selection and Employment of Consultants by the World Bank Borrowers, [May 2004, revised October 2006 and May 2010]. Applicants currently in government service in the client's country may apply only if they satisfy Paragraph 1.11 (d) of the Consultant Guidelines. Only short listed candidates will be contacted.

6. Remuneration: Negotiable.

7. Expressions of interest must be delivered to the address below by February 04, 2014 within office hours. EOIs submitted through email should also reach the e-mail address given below by 4.00pm on the same date.

8. Interested Consultants may obtain further information at the address of the undersigned during normal office hours.

9. EOIs received after the deadline of submission will not be considered for short-listing.

10. CWASA will not be responsible for any delay in submission including delay due to postal or any other reason. The authority reserves the right to accept or reject any or all EOI proposals either in part or in full without assigning any reason, whatsoever.
