The Earthen Maiden

A craftsperson lays down lids made out of mud out in the sun to dry the paint at Dhamrai, Shimulia.

THE BARE MINIMUM

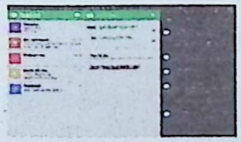

Five Must-Have Apps for Android Users

You are never bored if you have cool apps in your smartphone. Here's a list of five must-have apps if you are an android user.

1. SwiftKey

The android keyboard includes different keyboard layouts to make typing easier on larger screens and has a terrific prediction engine.

2. PushBullet

This app is the fastest way to send files, links, pictures, notes and much more from your computer to your phone or to your friends.

3. Slacker Radio

You can browse through more than 200 curated stations on this internet radio. You can also create your own programmed station based on artist, track or album.

4. Kobo

This e-reader app allows you to read and browse from more than 3.5 million e-books. With Kobo, you can read on your phone or table anywhere, anytime.

5. Pocket

Create your personalised reading list with this app, which allows you to save articles or texts directly from your browser or apps like Twitter, Pulse, and Flipboard.
