While Iftekharuzzaman said the matter needed investigation, Law Minister Anisul Huq agreed that the cultural affairs minister should step forward and clarify the matter.

He added that if his clarification proved to be unsatisfactory, the Anti-Corruption Commission might look into the matter.

Another panellist, Dr Osman Faruq, adviser to BNP Chairperson Khaleda Zia, demanded a proper investigation into the allegations of corruption in the Padma bridge project and the railway sector.

Judges independent

Bangladesh Bar Council, the authority that admits persons as new lawyers, gave out certificates to about 1,000 lawyers who were enrolled on December 8, 2009.

Earlier, Bar Council Vice Chairman Khandaker Mahbub Hossain sought the chief justice's intervention in the recent activities of the lower courts but he did not specify the "activities."

Justice Hossain said it could not be denied that there were some logistic constraints, especially in the lower judiciary where two judges sometimes had to share a courtroom to conduct proceedings.

He said separate buildings for magistrate's courts had been built in several districts, hoping that the problems would be gone some day.

At the event where he administered an oath to the new lawyers, the chief justice urged them to be honest, sincere and patriotic.

He also slammed people who criticise the court's verdicts in a "free style" without even going through the text.

Justice Syed Mahmud Hossain, a judge of the Appellate Division of the Supreme Court and chairman of the enrolment committee of the Bar Council, laid stress on a good rapport between the bar and bench for proper functioning of the judiciary.

Mahbubey Alam, the attorney general and ex-officio chairman of the Bar Council, and Bar Council Vice Chairman Khandaker Mahbub Hossain demanded a separate secretariat for the Supreme Court for a properly functioning judiciary.

The report also mentioned that the cultivation of foreign hybrid fish, excessive use of chemical fertilisers and pesticides in the crop fields, water pollution caused by industrial wastes from the Indian state of Meghalaya, filling up of rivers, canals and other water-bodies, unplanned construction of houses on the wetlands and construction of dams as the reasons behind the threat.

Besides, netting of spawning mother fishes is also to be blamed, it added.

Experts suggest strict enforcement of the Fisheries Resources Protection Act, reasonable use of fertilisers, avoiding excess use of the harmful pesticides and introduction of scientific fish production system.

The experts also suggested creating adequate sanctuaries for fish, proper maintenance of fish fry, reclamation of rivers, canals and haors and creation of awareness among the fishermen in order to deal with the problem.
