several times in the last two weeks but to no avail.

Talking to The Daily Star, Dr Dayem Uddin, head of the hospital's oncology department, said some 200 patients take daily therapy from the hospital.

These patients now have nowhere to turn to as the treatment is very costly at private hospitals, he said, adding that at government hospitals the cost per therapy ranges from Tk 5,000 to Tk 6,000, while at private hospitals the cost is around Tk 2 lakh.

Moreover, 25 percent patients are provided free treatment depending on their financial solvency, he added.

Patient Hossain Ali of Puthia said he has so far undergone 18 therapy sessions out of the prescribed 38.

Hossain's treatment has taken a setback when his therapy sessions came to a halt as he cannot afford private services.

He is now waiting for the machine to be operative.

Contacted, Moynul Haque, sub-divisional engineer of PWD, said they need to replace the air conditioners but they do not have the fund at the moment.

Replacement of the two air coolers require around Tk 2 lakh, he added.

ICDDR,B EMPLOYEES' COOPERATIVE SOCIETY Use of its orsaline suspended

STAFF CORRESPONDENT

The International Centre for Diarrhoeal Diseases Research, Bangladesh (icddr,b) has decided to stop using glucose and rice-based orsaline obtained from the icddr,b Employees' Multipurpose Cooperative Society.

The decision has been taken, as the cooperative's registration is pending with the Directorate General of Drug Administration, which regulates oral saline under the Drug Act of 1982, according to a statement of icddr, b yesterday.

"We have no concerns about the quality of the oral saline produced by the cooperative, but we have contracted an alternative supplier until this matter is resolved," said Prof John D Clemens, executive director of icddr,b.

Patient care at icddr,b hospitals in Dhaka and Matlab C Chandpur will not be interrupted during this transition, said the statement.

Recently, a mobile court of Rapid Action Battalion sealed off an illegal factory in the capital that produced fake oral saline and marketed those in the name of icddr,b.

Following the incident, it was found that the cooperative society was not registered with the DGDA.

Orsaline was developed by icddr,b in the late 1960's, and since then, is estimated to have saved at least 50 million lives worldwide.

the boundary of the centuries-old Moghul palace.

At a press conference at the office of the Crime Reporters' Association of Bangladesh in the capital, one of the house owners, Md Abul Hashem, said, "We have always paid government fees for the lands."

He added that land surveys, conducted in the area since 1912, had mentioned the lands as "private property".

Contacted, Dr Ataur Rahman, regional director of the Department of

Archaeology, told The Daily Star that the houses built within the fort should be demolished to protect the archaeological site.

"They may have been living on the fort premises for more than a hundred years; but every wrong must be corrected at some point," he said.

He also added that the High Court on October 26, 2011 had directed the government to remove illegal structures in and around the Lalbagh Fort to protect its beauty, nature and archaeological heritage.
