

STOP GENOCIDE!

It was never a war. There was never a battle between two armies. It was plain murder. In the name of stamping out Hamas terrorism, the Israeli army went full scale into terrorizing the people of Gaza. Its drones rained down missiles on homes, on neighbourhoods and into busy streets. Death came swiftly to those who did not deserve to die. Men, women and children were murdered indiscriminately, in the hundreds and then crossing the thousand-figure mark.

The world did nothing as Benjamin Netanyahu and his soldiers committed these war crimes. Homes turned into rubble, schools were blown up, those who did not die suffered with grave wounds in hospitals that ran out of medicine and then became targets of fresh Israeli criminality.

It was genocide all the way. The state of Israel, bereft of morality, turned into a killing machine.

IN THEIR VIEW

KENNETH ROTH,
EXECUTIVE DIRECTOR, HRW

Israel was guilty of war crimes, because it repeatedly launched attacks with the knowledge that the number of civilian casualties was likely to be disproportionate to the military gains.

NAVI PILLAY, UN RIGHTS BODY CHIEF

There seems to be a strong possibility that international law has been violated, in a manner that could amount to war crimes.

JIMMY CARTER & MARY ROBINSON,
EX-PRESIDENTS OF US AND IRELAND

There is no humane or legal justification for the way the Israeli Defence Forces are conducting this war. Israeli bombs, missiles, and artillery have pulverized large parts of Gaza, including thousands of homes, schools, and hospitals. More than 250,000 people have been displaced from their homes in Gaza. Hundreds of Palestinian non-combatants have been killed. Much of Gaza has lost access to water and electricity completely. This is a humanitarian catastrophe. There is never an excuse for deliberate attacks on civilians in conflict. These are war crimes.

How Israel violates the Geneva Conventions

- Targeting, killing and collectively punishing non-combatant men, women and children
- Moving its own population into an occupied zone
- Imposing unnecessary curfews and closures
- Exercising disproportionate use of force

How Israel defies int'l laws, UN resolutions

- Refusing to end over 40 years of military occupation
- Expanding and adding Israeli settlements
- Building the Apartheid Wall to take over Palestinian land and water resources
- Denying the right of return for millions of Palestinian refugees

And we'll walk hand in hand, we'll walk hand in hand, we'll walk hand in hand one day. Deep in my heart, I do believe. That we will walk hand in hand, One day. And we'll break down the prison walls. We will tear down those prison walls. Together we will tear down the prison walls on that day.</p> | <p>Deep in my heart, I do believe. That we will tear down all those prison walls, on that day. Deep in my heart, I do believe. That we will tear down those prison walls, on that day. And the truth will set us free, The truth will set us free, The truth will set us all free, On that day. And, deep in my heart, I do believe. That the truth will set us all free. And we shall overcome, On that day.</p> |
