# People reel from flood

Complain of inadequate relief

STAR REPORT

Although flood situation in 20 districts has improved in last few days, thousands are still suffering due to shortage of food, pure drinking water and other essentials.

Many of the victims of the flood-hit districts are yet to get relief materials although the district administrations concerned have already allocated money and rice for them.

However, the amount of relief materials being distributed is too scanty.

On an average, a flood victim has received only 1.69 kilograms of rice and Tk 3.16 in cash from the government until September 3, according to a calculation based on the data of the Department of Disaster Management (DDM).

A report uploaded by the DDM in its website says, total 29.35 lakh people of 6,21,595 families in 20 districts were affected by the flood that started from mid-August.

The government allocated 7,550 tonnes of rice and Tk 1.56 crore to them, but the local administration managed to distribute only 4,950 tonnes of rice and Tk 92,82,500 to the victims.

People try to catch fish in Arkatia of Dhunat in Bogra yesterday as the flooding there released fish from fish farms of the area.

CHEATED BY MANPOWER TOUTS

# 22 back from Sudan with broken hearts

STAFF CORRESPONDENT

Twenty-two Bangladeshi workers yesterday returned home empty-handed from Sudan as a Bangladeshi manpower recruiting agency allegedly lured them into going abroad with high-paying jobs.

"Al-Purbasha Enterprise, the recruiting agency, took Tk 2.5 lakh from each of us on average with the promise of a monthly salary of Tk 32,000. But we each got only Tk 7,000 to 8,000 per month," Anwar Hossain, a returnee, told The Daily Star.

The company management also

didn't pay them for their overtime work and misbehaved with them when they protested, he alleged.

The returnees are among the 58 Bangladeshis, who were forced to work in a company owned by a Turkish national and supervised by

## \$1tn rare minerals found in Afghanistan

LIVE SCIENCE

Despite being one of the poorest nations in the world, Afghanistan may be sitting on one of the richest troves of minerals in the world, valued at nearly \$1 trillion, top science news website Live Science reports quoting US scientists.

Afghanistan is loaded with minerals deposited by the violent collision of the Indian subcontinent with Asia. The US

Geological Survey (USGS) began inspecting what mineral resources Afghanistan had after US-led forces drove the Taliban from power in the country in 2004. As it turns out, the Afghanistan Geological Survey staff had kept Soviet geological maps and reports up to 50 years old or more that hinted at a geological gold mine.

In 2006, US researchers flew airborne missions to conduct magnetic, gravity and

## Single permit for vehicles across Saarc

TNN, New Delhi

In a bid to facilitate easy movement of both passenger and goods vehicles across the Saarc countries with a single permit, member countries are likely to finalise the draft terms and conditions in the next two days. However, what may come as a setback to this endeavour is the absence of any representative from Pakistan, Bangladesh and Maldives to the summit, which is being held at Neemrana in Rajasthan.

Sources said while the first two countries had earlier communicated their inability to send representatives, Dhaka joined the list lately. Bangladesh has informed that no representative could be sent because of some unavoidable reason. Pakistan and Bangladesh are the two

## Home for king up for sale

MAIL ONLINE

It was once used to imprison Robert the Bruce's son before he was sent to the Tower of London.

And now Ogle Castle in Northumberland, one of the oldest inhabited buildings in England, is up for sale for just £1.5million.

King David II of Scotland was locked up in the castle's Pele Tower after his defeat at Neville's Cross, in County Durham, in 1346.
