UAE teams to scope out infrastructure investment

DIPLOMATIC CORRESPONDENT

...... Two high-powered delegations from the United Arab Emirates will arrive in Dhaka early next year to scrutinise investment prospects in the country, like the construction of a third seaport in Patuakhali and of the 285km long marine drive project.

Foreign Minister AH Mahmood Ali said this to the press yesterday, while updating about Prime Minister Sheikh Hasina's October visit to the UAE in October this year. Hasina urged DP World Chairman

seaport in Patuakhali and in the Mirsarai-Teknaf marine drive project.

Later, the government sent formal proposals for the projects to UAE.

"We are now in discussion with DP World and another company, Mubadala, for Paira Bandar and Marine Drive projects," Ali said.

DP World has a portfolio of more than 65 marine terminals across six continents, including new developments underway in India, Africa, Europe and the Middle East.

cation of the UAE by investing in key social entire process," Ali said.

infrastructure propjects and creating globally integrated industry sectors in Abu Dhabi.

Focused on investment and development across multiple sectors, Mubadala's portfolio is valued at \$60.8 billion.

Ali also said transit visa complexities for Bangladeshi seamen that need to land at UAE ports including Dubai will also be removed.

Many international shipping companies recruit Bangladeshi seamen and ask them to join and board ships from the Sultan Ahmed Bin Sulayem to invest in the Dubai port while the ship is docked there for a few days, according to the foreign ministry.

> But as UAE does not allow transit for the Bangladeshi nationals, the sailors cannot join the ship in Dubai, and lose the jobs to other nationalities.

The foreign minister discussed the issue with his UAE counterpart on the sidelines of an anti-piracy conference held in Dubai on October 28-29. The prime minister also highlighted the subject.

"The UAE government is now looking Mubadala is an investment and devel- into the matter, and we hope these comopment company supporting the diversifi- plexities will be removed soon easing the

Workers' strike continues at private jetties in Ctg

STAFF CORRESPONDENT, Chittagong

Workers' strike under Ghat Gudam Sramik Union continued for the second day at private jetties on the bank of Karnaphuli river yesterday, halting unloading of goods from lighter vessels.

The workers led by Md Idris Ali Hawlader, convener of the union, called the strike at 16 such jetties to push their nine-point demands, including a 50 percent wage hike.

at four other jetties in the area on the day. In the morning, the two factions clashed over the

However, another faction of the union resumed work

strike and police picked up Hawlader from the scene to disperse the demonstrators.

Police Inspector Abul Kalam said they immediately dispersed the workers and none was hurt.

Moody's downgrades Japan credit rating

AFP, Tokyo

Moody's downgraded its credit rating for Japan on Monday, citing "rising uncertainty" over the country's debt situation and Prime Minister Shinzo Abe's faltering efforts to kickstart growth.

The ratings agency said it cut from Aa3, just two weeks before an leadership vote next year. election and after the economy sank

into recession during the July-September quarter.

Last month Abe announced that a planned sales tax rise set for next year would be delayed, as he called a snap election described as a referendum on his "Abenomics" growth blitz -- although observers said it was more likely aimed at consoli-Japan's rating by one notch to A1 dating his power ahead of a party

April -- to 8 percent from 5 percent -for the first time in 17 years, to help pay down one of the world's largest public debt mountains.

The levy rise delivered a body blow to Abe's efforts to rev up growth, just as the world's number three economy appeared to be turning a corner after years of deflation.

Tokyo raised the sales levy in grade... is the rising uncertainty over

whether the government's mediumterm deficit reduction goal is achievable, and whether policymakers can overcome the tensions inherent in promoting growth while simultaneously stabilising and reversing the rising debt trajectory," Moody's said in a statement.

But postponing the fresh tax rise to 10.0 percent, initially planned for "The first driver for the down- late 2015, "poses risks" to Japan's fiscal health, Moody's said.

The economy slowed by 2 percent in the third quarter, compared to 2.2 percent in the second, official figures indicated last month.

Better connectivity key to more foreign investment

FROM PAGE B1

Sobhan said the economy is moving from an aid-dependent model to a capital and FDI-dependent one.

Citing Prime Minister Sheikh Hasina's earlier trips to China and Japan, he said these countries are being identified as the principal sources of capital. But much will depend on how attractive

destination to them, he said, while calling for developing internal connectivity. He said improved connectivity with the port, reduced turnaround time at the ports,

Bangladesh makes itself as an investment

uninterrupted electricity supply and land availability is important to attract FDI. "Simplistic notions of participating in the globalisation will not really address

the more basic problems." Mohammad Yunus, senior research fellow of BIDS, stressed the need for build-

ing strong connectivity with the South Asian sub-region and the East Asian countries via Myanmar.

"Connectivity will be the fundamental issue. We need to have strong connectivity and skilled manpower if Bangladesh is to integrate to the global value chain."

Munshi Faiz Ahmad, chairman of the Bangladesh Institute of International and Strategic Studies, said the country has many partners and it has enough space to accommodate them. Binayak Sen, research director of BIDS, said the country should also take lessons from the domestic experiences of East Asian countries.

"By talking on a 'Look East' policy, we are only focusing on external capital flows and transfer of technology. We are not talking about the domestic experiences of the Eastern countries. So we need to go more holistically."

HSBC severs links with Bitcoin firm

BBC NEWS

HSBC has severed ties with the firm behind the world's first regulated Bitcoin investment fund. Jersey-based hedge fund Global Advisors (GA) claims the

bank was worried about "money laundering risk". GA's Daniel Masters told the BBC that the development

threatens well publicised plans to make Jersey a global centre for digital currencies. However, HSBC had yet to respond to requests for a comment. Masters said both his firm and the Bitcoin fund are tightly regulated. The States of Jersey has created a company called Digital

Jersey, in part to foster financial technology. Island politicians have travelled to Bitcoin conferences to

promote Jersey's enthusiasm for digital currencies. Masters launched the Global Advisors Bitcoin Investment Fund (GABI) in August after it was certified by

the Jersey Financial Services Commission. He said HSBC's move was a "step in the wrong direction for Jersey". Unregulated Bitcoin funds exist elsewhere, but the official approval allowed major investors, such as pension and insur-

ance companies, to speculate on Bitcoin for the first time. Having his accounts closed by HSBC is only the latest difficulty faced by GABI, said Masters.

He said that when he was launching GABI he could not find any island bank willing to provide services, so took GABI's business elsewhere.

BB fines banks for failure to collect client info

The Association of Bankers Bangladesh also called upon banks to collect the papers as guided by BB.

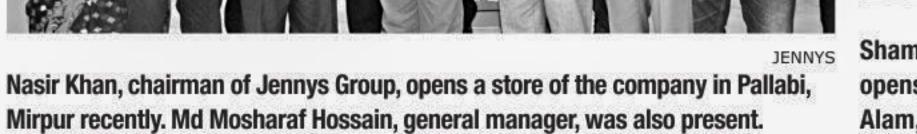

It issued a public service advert urging clients to provide their banks with the recommended documents. The ABB also warned of temporary suspension of account operations, debit card usage and internet banking, unless the papers were supplied.

The central bank introduced the KYC procedure to prevent money laundering.
