Eventful 2014:

LEADING LADIES | Reunite after 10 years

Moushumi, once the leading lady of Bangladeshi Cinema, has starred alongside Kolkata actress Rituparna Sengupta in the new movie "Ek Cup Chaa". This marks the first time these two once leading ladies of their respective cinema industries have acted together in 10 years. As if being a talented actress wasn't enough, Moushumi has also tried her luck at directing the film "Shunno Ridoy" as well as acting in it.

Mahi in Joint Venture Cinema

Bangladeshi film star Mahiya Mahi has worked on the first joint venture film between Bangladesh and Kolkata. The movie is called Romeo and Juliet and she starred alongside Kolkata actor Ankur. Mahi's last film "Onek Shadher Moyna", where she played Moyna, has turned out to be a big hit. This film has helped the actress reach great new heights. Last year also saw the release of Mahi's latest Bangladeshi projects "Desha: The Leader".

Multitasking
Ferdous

Ferdous is turning out to be a very multitalented person indeed. We all know him as an actor, but with the release of "Ek Cup Chaa" he has debuted as a producer as well. If that wasn't enough, he has also tried his hands at commentating a football match while on a publicity tour for his new film and also worked as a host for last year's National Film Award. Talk about a busy bee.
